## 2014 Caps History Grade 12 Paper 2:

Historical Racialized Toys in the United States Christopher P. Barton, Kyle Somerville, 2016-04-14 This book explores the history of children's toys and games bearing racial stereotypes and the role these objects played in the creation and maintenance of structures of racialism and racism in the United States from approximately 1865 to the 1930s. This time period is one in which the creation of structures of childhood and children's socialization into race was fostered. Additionally, commodities like toys were didactic and disciplinary media in the creation, modification, and reproduction of Victorian society. This volume will shed light on issues of identity, ideology, and hegemony and will appeal to those interested in historical archaeology, critical theory, and constructions of racism and class, as well as material culture scholars and antiques collectors. It will be suitable for upper level courses in historical archaeology, modern American history, and material culture studies.

*Yearbook of International Organizations 2014-2015, Volumes 1a & 1b (Set)* Union of International Associations, 2014-06-16 Volume 1 A and B covers international organizations throughout the world comprising their aims, activities, and events. *Public Workers in Service of America* Frederick W. Gooding Jr., Eric S. Yellin, 2023-08-15 From white collar executives to mail carriers, public workers meet the needs of the entire nation. Frederick W. Gooding Jr. and Eric S. Yellin edit a collection of new research on this understudied workforce. Part One begins in the late nineteenth and early twentieth century to explore how questions of race, class, and gender shaped public workers, their workplaces, and their place in American democracy. In Part Two, essayists examine race and gender discrimination while revealing the subtle, contemporary forms of marginalization that keep Black men and Black and white women underpaid and overlooked for promotion. The historic labor actions detailed in Part Three illuminate how city employees organized not only for better pay and working conditions but to seek recognition from city officials, the public, and the national labor movement. Part Four focuses on nurses and teachers to address the thorny question of whether certain groups deserve premium pay for their irreplaceable work and sacrifices or if serving the greater good is a reward unto itself. Contributors: Eileen Boris, Cathleen D. Cahill, Frederick W. Gooding Jr., William P. Jones, Francis Ryan, Jon Shelton, Joseph E. Slater, Katherine Turk, Eric S. Yellin, and Amy Zanoni.

*The Coming of Neo-Feudalism* Joel Kotkin,2023-01-10 Following a remarkable epoch of greater dispersion of wealth and opportunity we are inexorably returning towards a more feudal era marked by greater concentration of wealth and property reduced upward mobility demographic stagnation and increased dogmatism If the last seventy years saw a massive expansion of the middle class not only in America but in much of the developed world today that class is declining and a new more hierarchical society is

emerging The new class structure resembles that of Medieval times At the apex of the new order are two classes a reborn clerical elite the clerisy which dominates the upper part of the professional ranks universities media and culture and a new aristocracy led by tech oligarchs with unprecedented wealth and growing control of information These two classes correspond to the old French First and Second Estates Below these two classes lies what was once called the Third Estate This includes the yeomanry which is made up largely of small businesspeople minor property owners skilled workers and private sector oriented professionals Ascendant for much of modern history this class is in decline while those below them the new Serfs grow in numbers a vast expanding property less population The trends are mounting but we can still reverse them if people understand what is actually occurring and have the capability to oppose them
