*Constitutional Courts in Asia* Hongyi Chen, Andrew Harding, 2018-09-20 A comparative systematic and critical analysis of constitutional courts and constitutional review in Asia      **Global Canons in an Age of Contestation** ,2024-07-12

Comparative constitutionalism emerged in its current form against the backdrop of the fall of the Berlin Wall and the end of the Cold War As that backdrop recedes into the past it is being replaced by a more multi polar and confusing world and the current state of the discipline of comparative constitutionalism reflects this fragmentation and uncertainty This has opened up space for new more varied and increasingly critical voices seeking to improve the project of democratic constitutionalism But it also raises questions What of the past if anything is worth preserving Which more recent parts should be defining of the field In this context this book asks which are or should be the canonical texts of comparative constitutionalism The theoretical scope of the contributions is broad and ambitious selecting primary material from beyond the existing textbooks to engage the concept of a canon This framework provides significant insights about inclusion and exclusion and proposes candidates for canonical and anti canonical materials The result is a wide ranging discussion among many voices of how particular judgments and other primary texts have shaped or should shape our understanding of central elements of democratic constitutionalism from a comparative law perspective This book is not a prescription of one universal understanding but a broader conversation about the field and the future of constitutional democracy      **International**

**Affirmative Action for Economically Weaker Sections and Upper-Castes in Indian Constitutional Law** Asang Wankhede, 2022-09-30 This book examines the controversial 103rd Constitutional Amendment to the Indian Constitution that introduced an income and asset ownership based new constitutional standard for determining backwardness marking a significant shift in the government's social and public policy. It also analyses state level policies towards backwardness recognition of upper caste dominant groups through case studies of Maharashtra Haryana and Gujarat. It provides an analytical and descriptive account of the proliferation of reservation policy in India and critiques these interventions to assess their implication on constitutional jurisprudence. Further it assesses the theoretical and empirical challenges such developments pose to the principle of substantive equality and scope of affirmative action policies in Indian constitutional law and general discrimination law theory. The monograph shows how opening up of reservations for dominant upper caste groups and general category will have implications for the constitutional commitment to addressing deeply entrenched marginalisation emanating from the traditional social hierarchy and the understanding of substantive equality in Indian Constitutional law. Further it highlights key contradictions incoherence and internal tension in the design of the reservations for Economically Weaker Sections. Critical, comprehensive and cogently argued, this book will contribute and shape ongoing constitutional policy and judicial debates. It will be of great interest to scholars and researchers of law, Indian politics, affirmative action, social policy and public policy.

*The Civic Citizens of Europe* Moritz Jesse, 2016-10-05 In *The Civic Citizens of Europe* The Legal Potential for Immigrant Integration in the EU, Belgium, Germany and the United Kingdom, Moritz Jesse analyses the legal framework within which inclusion of immigrants into the receiving societies can take place. The inclusion of immigrants cannot be enforced by law. However, legislation must provide the room within which integration can take place legally. By studying residence titles, procedures, rights to family migration, permanent residence and integration measures in a comparative and critical way, Jesse wants to discover whether the legal potential for integration in the EU and the three Member States is sufficient for the inclusion of immigrants.
