Chiocci,2023-03-29 Straits and seaways represent key connections of oceans and seas between emerged landmasses regulating water sediment and biota exchanges and influencing local and global climate A good understanding of the dynamic evolution of straits and seaways is therefore fundamental to accurately reconstruct the paleoecology sedimentology and stratigraphy of interconnected basins to reconstruct past Earth s system climate dynamics and to exploit different types of resources This book provides a comprehensive collection of articles dealing with both ancient and modern case studies bringing together different but complementary disciplines such as marine geology and process sedimentology and stratigraphy With the contents covering the evolution geomorphology stratigraphy sedimentology oceanography paleogeography and influence on climate of straits and seaways the book is of interest to earth scientists in many fields Forbes Bertie Charles Forbes,2008 This business magazine covers domestic and international business topics Special issues include Annual Report on American Industry Forbes 500 Stock Bargains and Special Report on Multinationals *Alternative Energy* Brian C. Black,Richard Flarend,2010-02-26 An exceptionally timely volume that weighs the costs and benefits of alternative energy sources and their implications for reducing energy consumption As this book makes clear civilization cannot long continue to ride on an oil

slick Worldwide many people have come to see dependence on coal and especially on oil not only as unsustainable but as profoundly destabilizing both environmentally and politically While ever increasing demands continue to be placed on mainstream energy sources recurring attempts have been made to generate power in alternative ways After retracing some of these efforts this succinct and historically informed volume explores the ongoing debate over alternative energy that gathered strength in the 20th century showing how that debate mirrors larger attitudes toward energy and consumption Like other volumes in this series Alternative Energy is designed to provide material for student reports and debate arguments It is an outstanding sourcebook for those interested in investigating the problems and prospects of alternative fuels
