SCORING KEY AND RATING GUIDE

Mechanics of Rating

The following procedures are to be used in rating papers for this examination. More detailed directions for the organization of the rating process and procedures for rating the examination are included in the *Information Booklet for Administering and Scoring the Regents Examination in Global History and Geography and United States History and Government*.

Scoring the Part I Multiple-Choice Questions

On the detachable answer sheet, indicate by means of a checkmark each incorrect or omitted answer to multiple-choice questions; do not place a checkmark beside a correct answer. Use only red ink or red pencil. In the box provided on the answer sheet, record the number of questions the student answered correctly in Part I.

Contents of the Rating Guide

For both Part II (thematic) and Part III B (DBQ) essays:

- A content-specific rubric
- Prescored answer papers. Score levels 5 and 1 have two papers each, and score levels 4, 3, and 2 have three papers each. They are ordered by score level from high to low.
- Commentary explaining the specific score awarded to each paper
- Five prescored practice papers

For Part III A (scaffold or open-ended questions):

- A question-specific rubric

Answer Key Code For 2014 Global Regents

Patricia Fara

Answer Key Code For 2014 Global Regents:

Africa in Global History Toyin Falola, Mohammed Bashir Salau, 2021-12-06 This handbook places emphasis on modern contemporary times and offers relevant sophisticated and comprehensive overviews. It aims to emphasize the religious, economic, political, cultural, and social connections between Africa and the rest of the world and features comparisons as well as an interdisciplinary approach in order to examine the place of Africa in global history. This book makes an important contribution to the discussion on the place of Africa in the world and of the world in Africa. An outstanding work of scholarship, it powerfully demonstrates that Africa is not marginal to global concerns. Its labor and resources have made our world and the continent deserves our respect. Mukhtar Umar Bunza, Professor of Social History, Usmanu Danfodiyo University, Sokoto, and Commissioner for Higher Education, Kebbi State, Nigeria. This is a deep plunge into the critical place of Africa in global history. The handbook blends a rich set of important tapestries and analysis of the conceptual framework of African diaspora histories, imperialism, and globalization. By foregrounding the authentic voices of African interpreters of transnational interactions and exchanges, the Handbook demonstrates a genuine commitment to the promotion of decolonized and indigenous knowledge on the African continent and its peoples. Samuel Oloruntoba, Visiting Research Professor, Institute of African Studies, Carleton University.

A Lab of One's Own Patricia Fara, 2018. 2018 marks the centenary not only of the Armistice but also of women gaining the vote in the United Kingdom. *A Lab of One's Own* commemorates both anniversaries by exploring how the War gave female scientists, doctors, and engineers unprecedented opportunities to undertake endeavors normally reserved for men.

Environmental Education KHRITISH SWARGIARY, 2025-05-01

Environmental Education is an essential subject in the contemporary world, especially given the alarming challenges that our planet faces due to environmental degradation, resource depletion, and climate change. As the world's ecosystems are under unprecedented pressure from human activity, it has become imperative that future generations are not only aware of these issues but are equipped with the knowledge and skills to tackle them. The course Environmental Education offered under the Gauhati University Four Year Undergraduate Programme (FYUGP) aims to do precisely this: to educate students on the relationship between humans and the environment, the importance of environmental conservation, and the urgent need for sustainable development. This book, *Environmental Education*, is designed to serve as a comprehensive guide for students enrolled in the 5th semester of the Education course. It delves into the fundamental concepts, challenges, and practices related to the environment, with a particular emphasis on raising awareness about environmental hazards and promoting conservation efforts. By the end of this course, students will not only understand the crucial importance of the environment in human life but will also be equipped with the strategies to address the pressing environmental issues that threaten our planet. Throughout this book, I have made an effort to cover the major facets of Environmental Education, which include a clear definition of environment, the relationship between humans and the environment, and human impact on ecological

systems The book also explores significant environmental movements and projects such as the Chipko Movement the Silent Valley Project and the Narmada Valley Project illustrating how communities and governments have responded to environmental challenges The book further engages with environmental ethics and sustainable development encouraging students to reflect on the moral aspects of environmental protection and consider the long term impacts of their actions on future generations Environmental Education is not merely a subject to be studied it is a call to action The information presented here aims to guide students in critically assessing the current state of the environment and to provide them with the knowledge required to make informed decisions that can benefit both society and the planet As they examine environmental hazards and pollution students are encouraged to reflect on the roles they can play in mitigating environmental degradation and promoting sustainability in their communities and beyond Incorporating the Sustainable Development Goals SDGs into the curriculum this book highlights the significance of goals such as Goal 7 Affordable and clean energy Goal 12 Responsible consumption and production and Goal 13 Climate action By integrating these global targets the book empowers students to think critically about their contributions to achieving a sustainable future The relevance of this course is not limited to academic success alone It is a crucial step in preparing students to become responsible global citizens who can contribute meaningfully to environmental stewardship As environmental concerns continue to shape policies economies and societies worldwide it is vital that young minds are engaged and equipped with the knowledge to confront these challenges with intelligence compassion and creativity In closing I hope that this book will serve as a valuable resource for students pursuing Environmental Education providing them with not just theoretical knowledge but also a practical understanding of the critical environmental issues we face today Together we can inspire a generation of thinkers and activists who are committed to protecting our planet for future generations Khritish Swargiary May 2025

How to Successfully Encourage Sustainable Development Policy Günther Bachmann,2022-05-11 This book builds on the insights of Günther Bachmann former Secretary General for the German Sustainability Council who spent almost 20 years advising the German government on sustainability policy The book discusses his experiences in negotiating stakeholder statements at the highest national levels Bachmann takes the reader behind the scenes of German sustainable policy and practice whilst also comparing Germany with other national approaches He tells the story of political events from his insider perspective unfolding the narrative of sustainable development goals and how activists in their respective countries could and should relate to it Furthermore he suggests new lines of vision through the tangle of conference fatigue and buzzwords The book argues that environmentalists often display entrenched attitudes that too often downplay success The rhetoric of crisis and doom if overstretched and reduced to alarm paralyses action and innovation Bachmann who on the contrary argues positively and concretely shows unusual but significant signs of hope and confidence in action and how these can be made effective in the politics of sustainable development This book will be of global relevance to sustainability professionals and policy makers and will advise them on how to successfully move ahead with sustainability policies
