**High-Expectation Curricula** Curt Dudley-Marling, Sarah Michaels, 2015-04-25 Despite growing evidence that all students will benefit from engaging and challenging instruction many struggling students continue to experience a circumscribed curriculum that emphasizes low level skills. Featuring contributions from emerging and well known researchers this important volume is about the enactment of high expectation curricula in everyday practice. Chapters document specific classroom strategies that make a difference in the learning of students from low socioeconomic backgrounds and cultural and linguistic minority communities. While the book focuses on language and literacy instruction key chapters on math and science also demonstrate high expectation teaching across the curriculum. Book Features A broad framework for creating high expectation curricula in underperforming K12 schools clear illustrations of what alternative literacy practices look like powerful examples of rich math and science instruction research based strategies for second language learners students with disabilities and struggling readers an incisive critique of the deficit driven curricula that dominates in underachieving schools and classrooms

**Workbook** Holt McDougal, 2001 The Power of Middle School Keen J. Babbage, 2012-09-24 The middle school years are a maze of academic duties human growth and self development discovering self identity and increasing social interaction with other people. This maze can be an adventure of achievement and opportunity or it can be a struggle of difficulty and disappointment. As these experiences are the impetus or foundation for many later achievements in academics careers and personal life it is imperative that educators maximize these formative years by helping middle school students successfully travel through this maze despite its ups and downs its twists and turns and its new challenges to master and the old issues to resolve. For instance educators must support students who have fallen behind so as to thwart their reduced likelihood of turnaround in high school. Likewise educators must challenge exceptional students in order to perpetuate their enthusiasm for learning and prepare them for college studies. By discussing the comprehensive roles and duties of school administrators counselors and teachers The Power of Middle School addresses how to maximize middle school curriculum and extra curricular activities for the academic personal and professional benefits of all students
