Assassin's Creed Odyssey Main Storyline Game Guide: Walkthrough, Choices, Outcomes, Rewards and Etc. Vince Andrew Dela Cruz, 2019-03-16 Assassin s Creed Odyssey is the ninth large installment of the bestselling series launched in 2007 Unlike the previous parts of the series which were action games this production represents the RPG action genre The title was created by Ubisoft s in house studio in Montreal Assassin s Creed Odyssey begins in 431 BC with the outbreak of the conflict between Sparta and Athens known as the Peloponnese War Before starting the game we choose one of the two characters Alexios or Cassandra grandchildren of the famous king of Sparta Leonidas However they were cursed by the family and banished we meet them when they earn a living as mercenaries as adults The beginning of the title Odyssey on the other hand is the moment when the heroine or heroine takes on orders that will radically change his life opening the way for him to become a Spartan heroine Unlike earlier Assassin s Creed games Odyssey s plot is to some extent non linear In the course of the struggle we make decisions that influence the course and end of the script although we cannot influence the fate of the world the choices we make are translated into the life of the protagonist the creators allow us for example to

romance with selected people and the characters around him The story is conveyed both in film interviews and in conversations in which the developers for the first time in the history of the series gave players the opportunity to choose dialogue issues Separate mention should be made of the fact that in Assassin s Creed Odyssey historical and mythical characters appear headed by Socrates documenting our actions by Herodotus Hippocrates known as the father of modern medicine or even Pericles who fought to defend Athens independence In Assassin s Creed Odyssey we observe the action from a third party perspective TPP The game gives us a vast open world which consists of several regions varying in terms of landscape season and population density In addition to Attica which is central to Athens and Lakonia where Sparta is located there are also militarized Achaia and Messinia forest islands with a beautiful golden autumn or even the glamorous city of Corinth We can travel along this sandbox both on foot which makes the parkour system which is a showpiece of the series allowing the heroes to overcome obstacles in a spectacular and instant way and on the back of a mountain named Phobos In addition the game returns free sailing a hallmark of Assassin s Creed IV Black Flag released in 2013 Our ship Adrestia can be modified by changing its appearance and equipment Of course we do not swim alone on the sea during the game we can recruit the crew also from among stunned enemies and each of its members has unique abilities which influence our combat potential during battles with enemy units It is worth noting that sailing is once again made more attractive by the shanties sung in Greek by our subordinates On land our enemies are eliminated both from hiding and in open combat If we decide on a quiet solution we can take advantage of the blessings carried by the spearhead of Leonidas spearhead a legendary artifact which replaced a hidden blade known from earlier versions of the cycle These weapons also provide Alexios and Kassandra with supernatural abilities like increased strength or the ability to instantly knock out an opponent s shield they are useful in close combat duels where we use various types of white weapons There are also large scale battles with up to 300 units in the game and when we break the law our Mercenaries follow us and we can bribe kill or simply run away from them
