Vault Guide to the Top Financial Services Employers Derek Loosvelt,2006 From the author of the Vault Guide to the Top 50 Banking Employers now in its 9th edition this Guide profiles 55 employers including American Express AIG Capital One Fidelity FleetBoston GE Capital Prudential Vanguard Group and Visa The inside scoop on what it's like to work and what it takes to get hired there Based on interviews and surveys of actual employees

The Next American Century Nina Hachigian,Mona Sutphen,2008-01-08 The rise of other global powers is most often posed as a sorry tale full of threats to America's primacy prosperity and way of life The potential loss of our 1 status implies a blow to our safety economy and prestige But this is a rare moment in history none of the world's big powers is our adversaries In The Next American Century Nina Hachigian and Mona Sutphen show that the pivotal powers China Europe India Japan and Russia seek greater influence but each has an enormous stake in the world economy and a keen desire to thwart common threats India is a key ally in the struggle against terrorism China's help is essential to containing pandemic disease Russia is leading an effort to keep nuclear devices out of terrorists hands Japan and Europe are critical partners in tackling climate change None of these countries is a direct military or ideological challenger In fact their gains largely help rather than hurt America's continuing prosperity growth and to some extent even its values Will we have conflicts with these powers Definitely Some will be serious But by and large they want what we want a stable world and better lives for their citizens We live in an era of opportunity not of loss To take advantage of this moment the United States must get its own house in order making sure that American children can compete American workers can adjust America's military remains cutting edge and American diplomacy entices rather than alienates While America must be prepared for the possibility that a hostile superpower may one day emerge it has to be careful not to turn a distant uncertain threat into an immediate one Washington should welcome the pivotal powers into a vigorous international order to share the burden of solving pressing global problems of peace climate health and growth The avenue to a truly safer and more prosperous world runs through the pivotal powers With them we can build a world where Americans will thrive today and tomorrow

Start With the Future and Work Back A Heritage Management Manifesto is a lively often amusing but seriously perceptive take on the business of history and the history of business The book explores The History Factory's role in creating and shaping the global heritage management industry drawing on its work with a broad array of corporations and the original business characters the firm has served since its founding in 1979 At its heart the book is a 21st century survey of innovative business leadership that builds on the stories of courageous leaders at corporations willing to dig deeply into their inventory of experiences to support authentic communications establish credible brand positioning and improve employee retention and recruitment Iconic examples of inside out business positioning using heritage range from the sartorial remake of Brooks

Brothers to stories of innovation told by company employees at Subaru from New Balance's immersive global headquarters exhibit that aptly conveys its dynamic culture to the creation and maintenance of the Wrigley archive.
