describes the extraordinary collaboration between liberal and conservative scholars that led to the creation of *Educating for American Democracy* a roadmap for the teaching of civics Finally Traub describes the classical school a traditional model based on the study of great books and the conscious molding of character which is derided as reactionary in progressive circles yet prompts students to discuss books and ideas with depth Shedding light on one of the most divisive issues of our time *The Cradle of Citizenship* upholds a vision of civics education as it could be     *An Experiment in the Supervision of American History* George Gould,1930     ***Educational Times and Journal of the College of Preceptors*** ,1889
