WHAT IS MAN? Edgar Andrews, 2018-07-03 In 1906 American humorist Mark Twain published a sixty page essay entitled What is man Consisting of an interminable dialogue between a senior citizen who believes that man is just a machine and a young man who believes nothing in particular but is open to persuasion it wasn't one of his finest books But at least he tried Authors since then seem to have avoided the subject like the plague often tackling the respective roles of men and women in society but seldom asking deeper questions about what it means to be human When the psalmist asked What is man Psalm 8 v 4 he was I think seeking an altogether more profound answer Avoidance of the subject is all the more strange because there has never been a time like our own when curiosity about human origins and destiny has been greater or the answers on offer more hotly disputed It's a safe bet that any attempt to give the big picture on the origin nature and specialness of mankind will be contentious which might explain why writers have generally fought shy of it Yet at heart it is the question most of us really do want answered because the answer defines that precious thing we call our identity both personally and as a race The Psalmist did of course offer his own answer three millennia ago Man he claimed was created by God for a clearly defined purpose to exercise dominion over planet earth and by implication to ultimately share something of the glory of the divine nature The rest as they say is history but it's not a happy tale As Mark Twain says in another essay I can't help being disappointed with Adam and Eve Not surprisingly then a large proportion of humanity today are looking for alternative solutions accepting the challenge of the Psalmist's question without embracing the optimism of his answer In this book we are going to consider the alternative solutions on offer by considering what it means to be human against the backgrounds of cosmology man's place in the universe biology man's place in the animal kingdom and psychology man's consciousness and mind Finally we return to the biblical context arguing that the Psalmist got it right after all Don't let the science sounding stuff put you off Like its popular prequel Who made God Searching for a theory of everything this book is written with a light touch in a reader friendly and often humorous style It is intended specifically for the non expert with homely verbal illustrations designed to explain and unpack the technicalities for the lay person As Dr Paul Copan Pledger Family Chair of Philosophy and Ethics Palm Beach Atlantic University says Edgar Andrews has a way of making the profound accessible His scholarship informs the reader about key questions of our time offering wise guidance and illumination

The Creation of Man Gilbert H. Edwards,2010-06 I have focused on the idea of man in creation and have tried to clarify it Perhaps there is as much confusion and uncertainty here as anywhere today even in Christian ranks There is confusion and uncertainty of the beginning of man was he created as man as of today or did he evolve from an ape Also there are other things that confuse and seem uncertain to man that I tried to point out in this study The idea of God is being attacked in many ways and in many quarters But there seems to be also a growing recognition of man s need of God Man within himself is helpless in the midst of hostile forces on every hand God is man s only refuge and help in time of need I feel that man should know about his total self and relationship with God I will try to point out and focus on studies of man before the world was created the three folds of man s nature and functional parts his fall and punishment and also his renewal stages and his final destiny *The Descent of Man* Charles Darwin,2017-07-04 This book is one of the classic book of all time
