**The God of Universe** Ted Jec.,2013-08-05 It took me many years to understand better the world we live in I experienced that the Universe has its way for existence When you follow it you can flow with it not against it and that is the way Living among people who fight against the Universe brings you against the current of the Universe The history shows that those who understood the wisdom of Universe got in trouble as the code of Universe is inconvenient to some These days seat belt laws and other bogus laws are exploiting you every day under Slogan of safety and public service The greed brings legal harassment exploitation and Corruption to you making money by corrupted police local courts and governments You are being rubbed by those who should help you You are in neo slavery Good reality perception allows you to say it like it is Jesus Buddha Mohammed and all others said it like it is so can I and you See the reality and flow with the Universe Find the way to happiness today Take your chains of your slavery away and become free with true justice liberty and freedom to all as it is your birthright given to you by the Universe With every day life we get distracted and we loose the touch with reality nature and the Universe We all need to find the way to understand and enjoy our journey through our life Our small piece of Universe we have on Earth is the most beautiful You need to see the beauty To see it you need to be sensitive to be sensitive you need to be good and to be good is to know how to flow and follow the Universe the Universe knows what it is doing so can you The code of Universe is yours to experience it is free to all of us and no corrupted government or individuals can take it from you The Laws of Universe override all other laws Once you allow yourself in the Universe you may understand more then you can imagine You can find the way that brings you closer to the powers of our existence These are thoughts not from doctrines of any schools religions but individual experience of a man living in the time and space of our Universe Discover your way and enjoy it Be Good May the Wisdom of the Universe enter your reality from here Ted Jec
