Tripathi, Himani Goyal Sharma, Tripti Sharma, Rishabh Dev Shukla, 2025-03-31 The conference was aimed to bring researchers practicing engineers, faculty members and students from across the globe to a common platform to share their research ideas that would pave the way to attain solutions to various real-time problems. Many eminent researchers from different countries participated and interacted with the young students and budding researchers from various institutions. The objective of this conference was to connect with junior and senior scholars working with the educational architecture of the past, present, or future in the area of Semiconductor Devices, Electronic Circuit Design, Machine Vision, Signal Processing, Communication Technologies, and Systems. Electromagnetic RF, Microwave, Wearable Technology, Nano Technologies, IC Fabrication, Biotechnology, Automation, Robotics, Electrical Machines, and Adjustable Speed Drives. Renewable Energy Sources, Smart grids, Technologies, Applications. Key features included keynote presentations from renowned experts, paper presentations, showcasing novel research, interactive panel discussions, and exploring practical applications of emerging technologies.

Challenges in Information, Communication and Computing Technology V. Sharmila, S. Kannadhasan, A. Rajiv

Kannan, P. Sivakumar, V. Vennila, 2024-12-10 This book explores the critical challenges and emerging trends in Information, Communication, and Computing Technology (ICCT). It provides a comprehensive overview of the key issues facing these rapidly evolving fields, from data security and privacy to advancements in artificial intelligence, communication networks, and quantum computing. Through in-depth analysis and expert perspectives, this volume aims to shed light on the complexities of ICCT and offer innovative solutions for researchers, practitioners, and students. Building on its exploration of challenges in ICCT, this book delves into several core areas. These include the development and deployment of secure and efficient communication networks, the ethical implications and technical hurdles of artificial intelligence and machine learning, and the promise and complexity of quantum computing. The book also addresses the management of big data, highlighting both its potential and the challenges of ensuring data privacy and security. Additionally, it examines the role of sustainability in computing, advocating for greener technologies and practices. The findings presented in this volume emphasize the need for interdisciplinary approaches and innovative thinking to address these challenges, offering insights that are both practical and forward-looking. This book is intended for a diverse audience that includes researchers, practitioners, and students in the fields of Information, Communication, and Computing Technology (ICCT). It is particularly valuable for academics and professionals seeking to deepen their understanding of current challenges and emerging trends in these areas. Additionally, policymakers, industry leaders, and technologists will find the book's insights useful for informing decisions and strategies in the development and implementation of advanced technologies.
