

# 4TH GRADE SCIENCE

## Animal & Plant Life Cycles

The image displays a collection of educational resources for 4th-grade science, specifically focusing on animal and plant life cycles. In the foreground, a laptop screen shows a grid of eight small diagrams illustrating various life cycles, including those of insects, plants, and animals. To the right, a worksheet titled "Butterfly Scavenger Hunt" is visible, featuring images of monarch butterflies, painted ladies, and caterpillars, along with a list of butterflies to be identified. Another worksheet titled "Animal and Plant Life Cycles" is also shown, explaining the difference between simple and complex life cycles. The simple life cycle section includes a diagram of a bird's life cycle (egg, hatchling, adult) and a fish's life cycle (egg, young, adult). The complex life cycle section, titled "Metamorphosis," includes a diagram of a frog's life cycle (egg, tadpole, adult) and a butterfly's life cycle (egg, caterpillar, pupa, adult). The background features a large illustration of a monarch butterfly on a branch with green leaves and a caterpillar.

**Animal and Plant Life Cycles**

**Butterfly Scavenger Hunt**

Some animals go through a simple life cycle and some go through a more complex cycle called metamorphosis.

**Simple Life Cycle**

Mammals, birds, reptiles and most fish have simple life cycles. They lay eggs or are born, then they grow and become an adult, like the fish or the bird. You will notice that in the case of both the bird and the fish, the young is similar to the adult. There are not major changes in the shape of their bodies.

**Metamorphosis**

Amphibians, which include frogs, toads, salamanders and newts, all go through metamorphosis. Here is the life cycle of a frog. Notice that after it hatches and swims in the water, after several changes it transforms to a legged animal that can survive on land for periods of time. This is a transformation. Butterflies also go through metamorphosis. They start as an egg and go through several stages to become an adult butterfly.
