ABSTRACT

This year journal "Medical Archives" celebrates 70th anniversary of its continuing publication. Medical Archives is oldest biomedical journal in Bosnia and Herzegovina and one of the oldest medical journals in Europe, established in the year 1947, as official scientific and professional journal of Association of Physicians of Bosnia and Herzegovina. Until present Medical Archives has published over 5000 articles. Today Medical Archives is internationally recognized medical peer-reviewed indexed journal, visible in more than 30 international on-line databases.

Key words: Medical journal, Medical Archives, Bosnia and Herzegovina.

This is the third Editorial which I write to mark the tenth anniversary of publishing the oldest medical journal in Bosnia and Herzegovina (B&H) – "Medical Archives". The first one I wrote during time of war (1992-1995), second, on the occasion of the 60th anniversary of the creation and publishing, in 2006 (1). This third is composed of parts of the manuscript that were published in a special monograph issued to celebrate the 60th anniversary of the creation and publishing of Medical Archives. I allow myself the freedom to take on behalf of the Editorial board (and the last three) from falling into oblivion some facts related to the establishment of the "Medical Archives" and characteristic of periods during its continuous publishing for the past seventy years (2-8).

"Medical Archives" was founded in 1947 as official journal of Association of Physicians of Bosnia and Herzegovina. The first Editorial board was consisted of Vladimir Čavka, Blagoje Kovacević, Bogdan Žimonjić and Ibro Brkić.

During that post-war time 1947 were founded significant scientific and educational medical institutions: Faculty of Medicine in Sarajevo, Academy of Sciences and the

art of Bosnia and Herzegovina, Association of Physicians of B&H, who have become nest of science and profession in medicine and health care in B&H and alma mater of all other medical and professional institutions later in B&H. Exactly, the Medical Archives journal was a key milestone that helped in education of all academic and professional staff that became the foundation of Bosnian and Herzegovinian medicine as a science and health care as a profession. In the first issue, academician Vladimir Čavka signs first Editorial with this line: "Our leaders, not sparing the enormous material resources, trying with all their strength that our Medical Faculty in Sarajevo as quickly as possible put on a solid foundation, expecting rightly, of all who participate in the construction of the Faculty the maximum effort. With the formation of the Medical Faculty in Sarajevo and the activation of the Association of Physicians for Bosnia and Herzegovina there was a need of issuing a professional medical journal, in which, next to scientific papers and articles can be included also clinics and therapy of all branches of medicine, and which will, in the first place, were of interest to practicing doctors. Also the journal was publishing articles from

At Seventy A Journal:

At Seventy May Sarton, 2014-12-16 Winner of the American Book Award May Sarton's honest and engrossing journal of her seventieth year spent living and working on the Maine coast May Sarton's journals are a captivating look at a rich artistic life. In this her ode to aging she savors the daily pleasures of tending to her garden, caring for her dogs, and entertaining guests at her beloved Maine home by the sea. Her reminiscences are raw and her observations are infused with the poetic candor for which Sarton over the course of her decades long career became known. An enlightening glimpse into a time the early 1980s and an age. **At Seventy** is at once specific and universal, providing a unique window into septuagenarian life that readers of all generations will enjoy. At times mournful and at others hopeful, this is a beautiful memoir of the year in which Sarton looking back on it all could proclaim I am more myself than I have ever been.

At Seventy May Sarton, 1984 May Sarton poet and novelist biography **Ugarit at Seventy-Five** K. Lawson Younger, 2007 In the spring of 1928 a Syrian farmer was plowing on the Mediterranean coast near a bay called Minet el Beida. His plow ran into a stone just beneath the surface. When he examined the obstruction he found a large man made flagstone that led into a tomb in which he found some valuable objects that he sold to a dealer. Little did he know what he had discovered. In April of 1929 C. F. A. Schaeffer began excavation of the tombs but a month later he moved to the nearby tell of Ras Shamra. On the afternoon of May 14 the first inscribed clay tablet came to light, thus the beginnings of the study of Ugarit and the Ugaritic language. Seventy five years have passed and the impact of this extraordinary discovery is still being felt. Its impact on biblical studies perhaps has no equal. In February 2005 some of the preeminent Ugaritologists of the present generation gathered at the Midwest Regional meetings of the American Oriental Society to commemorate these 75 years by reading the papers that are now published in this volume. The first five essays deal with the Ugaritic texts while the last three deal with archaeological or historical issues.
