G. Hussein Rassool

2006 Frontier Reference Guide:

Rare Earth Frontiers Julie M. Klinger, 2018-01-15 Rare Earth Frontiers is a timely text As Klinger notes rare earths are neither rare nor technically earths but they are still widely believed to be both Although her approach focuses on the human or cultural geography of rare earths mining she does not ignore the geological occurrence of these mineral types both on Earth and on the moon This volume is excellently organized insightfully written and extensively sourced Choice Drawing on ethnographic archival and interview data gathered in local languages and offering possible solutions to the problems it documents this book examines the production of the rare earth frontier as a place a concept and a zone of contestation sacrifice and transformation Rare Earth Frontiers is a work of human geography that serves to demystify the powerful elements that make possible the miniaturization of electronics green energy and medical technologies and essential telecommunications and defense systems Julie Michelle Klinger draws attention to the fact that the rare earths we rely on most are as common as copper or lead and this means the implications of their extraction are global Klinger excavates the rich historical origins and ongoing ramifications of the quest to mine rare earths in ever more impossible places Klinger writes about the devastating damage to lives and the environment caused by the exploitation of rare earths She demonstrates in human terms how scarcity myths have been conscripted into diverse geopolitical campaigns that use rare earth mining as a pretext to capture spaces that have historically fallen beyond the grasp of centralized power These include legally and logistically forbidding locations in the Amazon Greenland and Afghanistan and on the Moon Digital Reference Services in Academic Libraries Ab. Kadir Wan Dollah (Wan.), 2012 American Book Publishing Record , 2007 D&B Reference Book of Corporate Managements , 2009 **Can Psychedelic Therapies open a New Frontier in Mental Healthcare (Or Will the Bubble Burst?)** Antonio Metastasio, Graham Campbell, Renee Harvey, Peter Schuyler Hendricks, Joanna Caroline Neill, Katrin H.
