Failed Führers Graham Macklin, 2020-03-27 This book provides a comprehensive history of the ideas and ideologues associated with the racial fascist tradition in Britain. It charts the evolution of the British extreme right from its post war genesis after 1918 to its present day incarnations and details the ideological and strategic evolution of British fascism through the prism of its principal leaders and the movements with which they were associated. Taking a collective biographical approach the book focuses on the political careers of six principal ideologues and leaders Arnold Leese 1878 1956 Sir Oswald Mosley 1896 1980 A K Chesterton 1899 1973 Colin Jordan 1923 2009 John Tyndall 1934 2005 and Nick Griffin 1959 in order to study the evolution of the racial ideology of British fascism from overtly biological conceptions of white supremacy through racial nationalism and latterly to cultural arguments regarding ethno nationalism. Drawing on extensive archival research and often obscure primary texts and propaganda as well as the official records of the British government and its security services this is the definitive historical account of Britain's extreme right and will be essential reading for all students and scholars of race relations, extremism and fascism

Clio, 1993 **Current Contents. Arts & Humanities** Institute for Scientific Information, 1994 Britain Beyond Europe Bill Jamieson, 1994 CURRENT

CONTENTS, 1996 A Study of Non-rational Elements in the Works of Henry Adams as Centralized in His Attitude Toward Woman Sister Aquinas Healy, 1956 **The History of an Obsession** Klaus P. Fischer, 1998 The state sponsored genocide known as the Holocaust was the greatest crime of this century and a seminal event of modern times. In this major work Klaus Fischer unravels the complex history of Judeophobia in its four essential forms Christian nationalistic social discriminatory and biological racial. He argues that German defeat in World War I cleared the way for the pathological Judeophobia that formed the core of Nazism. When Hitler turned Germany into a racist totalitarian state Jews changed from Christ killers or alien outsiders to racial subhumans or deadly bacilli. Fischer carefully explores the German Jewish relationship in modern times in all its dimensions. He reveals how the Nazis' anti-Jewish prejudices became public policy in the Third Reich and traces the interaction between ideological obsession and bureaucratic decisions that led to the Final Solution. Finally Fischer shows the global implications of the Holocaust by exploring how collectivized and aberrant thinking when it becomes institutionalized in a modern technological state can cause even greater horrors in the future
