Medicine David Beaumont,2021-07-16 When Ivan Illich published *Medical Nemesis* in 1975 he offered a withering critique of the medical profession and the medical model The medical establishment has become a major threat to health he said Nearly half a century has elapsed since then and things have got worse In the UK only 5 per cent of the health budget is spent on prevention The system is so strained that the rule is often one problem per consultation Disease management takes precedence over disease prevention and a wider perspective on health and wellbeing is largely absent At least once a month one third of GPs consider leaving the profession Patients are referred to secondary care simply because primary care cannot cope But doctors want to practise differently People also want more The global health and wellness industry has stepped into the gap It offers more holistic and whole person approach that people seek And it s big business It is now estimated to be worth 4 2 trillion per annum In this book David Beaumont proposes a better approach The current healthcare system is a deficit model It attempts to address and correct the absence of health so it is therefore more correctly termed a disease care system Positive medicine is an abundance model It aims not only to help people manage illness and disease but to enhance their health Although this book is very specifically about doctors and patients it will resonate with all healthcare professionals *More Ultimate Healing* Editors, Bottom Line Books,2007 Ultimate healing naturally Amazon com

International Journal of Tissue Reactions ,2005 *The Journal of Alternative and Complementary Medicine* ,2009 **I Will Take You to Broceliande** Elizabeth Muhlhaus,2019-03-27 It is a mystery story and a detective story about mankind s primordial quest for peace on earth which first requires that we understand how peace gets destroyed And like the thrillers on TV that reveal clues slowly you will see a crescendo of mysteries that I knew were clues if I could just figure them out Those tough experiences were simply what I had to go through to develop the sensitivity to subliminal signals in nature that I never would have been able to pick up if my life had only been happy and easy Yet the story is peppered with exhilarating

moments of transcendence love and naivete Wonderful experiences dotted this life like pecans in cinnamon rolls
