Student Exploration: RNA and Protein Synthesis

Directions: Follow the instructions to go through the simulation. Respond to the questions and prompts in the orange boxes.

Vocabulary: amino acid, anticodon, codon, gene, messenger RNA, nucleotide, ribosome, RNA, RNA polymerase, transcription, transfer RNA, translation

Prior Knowledge Questions (Do these BEFORE using the Gizmo.)

1. Suppose you want to design and build a house. How would you communicate your design plans with the construction crew that would work on the house?

To communicate my design plans with the construction crew, I would show them my plan and I would then tell them how to do it.

2. Cells build large, complicated molecules, such as proteins. What do you think cells use as their "design plans" for proteins?

I think cells use DNA as their "design plans" for proteins.

Gizmo Warm-up

Just as a construction crew uses blueprints to build a house, a cell uses DNA as plans for building proteins. In addition to DNA, another nucleic acid, called **RNA**, is involved in making proteins. In the *RNA and Protein Synthesis* Gizmo, you will use both DNA and RNA to construct a protein out of **amino acids**.

1. DNA is composed of the bases adenine (A), cytosine (C), guanine (G), and thymine (T). RNA is composed of adenine, cytosine, guanine, and uracil (U).

Look at the **SIMULATION** pane. Is the displayed segment a part of a DNA or RNA molecule? How do you know?

It is a part of a DNA molecule, since there is a double helix.

2. **RNA polymerase** is a type of enzyme. Enzymes help chemical reactions occur quickly. Click the **Release enzyme** button, and describe what happens.

The enzymes split the hydrogens bonds in the middle.

Science John Michels (Journalist),2003 A weekly record of scientific progress **City of Dreams Vol 1** Jonas Baghlani,2024-09-23 In a secret world beneath the Earth's crust an impossible truth holds everything together the very fabric of this underground reality is sustained by the collective dreams of the people who live there Every tree building and cloud in the sky exists because they're dreamt into existence It's a world built on the delicate balance of imagination and belief where the citizens are literally the creators of their own reality And amidst all this we meet our protagonist a delusional automotive engineer who believes he's a scientific genius hiding from the world in his underground lab to avoid government scrutiny He feels as if he has stumbled upon this dream powered world by accident While everyone else down here nurtures and maintains the dream that makes their reality exist he's convinced it's all nonsense just a bizarre unexplained anomaly In his eyes there's a perfectly rational explanation for everything one that will make him world famous once he proves it But the citizens of this world don't see things his way they rely on their collective belief and anyone who challenges it is a threat Lately whispers have spread throughout the underground world whispers of an unseen enemy Posters have begun to appear on street corners warning about someone who doesn't believe someone who threatens the dream And it's not dismissed as a conspiracy or fearmongering but the warnings are growing louder and the fear is starting to take root because the residents believe After all what happens to a world made of dreams when someone refuses to dream along Our protagonist of course finds these rumors laughable The idea that belief powers the world is just superstition to him He continues his work in secret tampering with genetic technology and playing around with bizarre experiments that could

potentially disrupt the delicate balance of the dreamworld As tensions rise the citizens begin to suspect that he may be the very enemy the posters warn of The protagonist stubborn and arrogant refuses to accept that his disbelief could be causing any sort of breakdown To him the idea that belief controls reality is as absurd as the conspiracy theories he scoffs at But the more the world unravels the clearer it becomes belief isn't just a fanciful notion down here it's the very force keeping the world alive The unseen enemy the one who doesn't believe in the dream may not be a shadowy figure in the background It may be him
