The Chicago School of Political Economy Nadia Mizner, Warren Samuels, 2021-12-16 The Chicago School of Economics is arguably the most successful and influential since World War II. This volume provides an interpretation of the Chicago school through constructive critique of its doctrines. It is an inquiry into the nature, role, and significance of the school and its doctrines within both the economics profession and the larger world of ideas and action. This volume offers a deeper understanding of the school of its strengths and weaknesses and of the tasks of any body of thought that hopes to comprise an alternative. □□□□□□□□, 1962 **Private Governance** Edward Stringham, 2015 From the world's first stock markets to private policing in San Francisco to millions of credit card transactions, Private Governance makes the case that private rules and regulations are more common and effective than most people know. The British Library General Catalogue of Printed Books to 1975 British Library, 1985 Regulating Mergers and Acquisitions of U.S. Electric Utilities: Industry Concentration and Corporate Complication Scott Hempling, 2020-10-30 What happens when electric utility monopolies pursue their acquisition interests undisciplined by competition and insufficiently disciplined by the regulators responsible for replicating competition? Since the mid-1980s, mergers and acquisitions of U.S. electric utilities have halved the number of local independent utilities. Mostly debt-financed, these transactions have converted retiree-suitable investments into subsidiaries of geographically scattered conglomerates. Written by one of the U.S.'s leading regulatory thinkers, this book combines legal, accounting, economic, and financial analysis of the 30-year march of U.S. electricity mergers with insights from the dynamic field of behavioral economics. *Canadian Books in Print*, 1994 **Some Evidence on the Unidimensionality of Time Sharing**
