It provides an indispensable guide for understanding how the Mao era continues to shape Chinese politics today. China's Military Transformation You Ji, 2016-01-25 China's military transformation is one of the major geo strategic developments of the 21st Century. Billions of dollars are being spent modernizing The People's Liberation Army PLA as China seeks to upgrade and expand its military capabilities to rival the US. In this cutting edge analysis You Ji a leading expert on China's military affairs explores the changes taking places within the PLA today covering its ground aerospace and maritime forces its ability to meet asymmetric threats and the growing role played by the People's Armed Police in quelling dissent in China. He shows how these transformations in personnel technology and strategic goals are slowly driving a wedge between China's two most powerful institutions. Until recently relations between the CCP and PLA were harmonious but as the PLA becomes increasingly professionalized and autonomous so its unconditional loyalty to the ruling Party may weaken. The changing relationship between the CCP and PLA he argues is likely to have profound implications for China's own political development and the balance of power in the Asia Pacific region. Comprehensive and incisive this timely book is a valuable resource for anyone interested in the nature and consequences of China's military rise.

Three Revolutions Simon Hall, 2025-07-01 A salve for our current reactionary times ANDREW HARTMAN The gripping untold story of how six epic journeys launched the three communist revolutions that changed world history forever. From the streets of Petrograd during the heady autumn of 1917 to Mao's stunning victory in October 1949 and Fidel's triumphant arrival in Havana in January 1959 the history of the twentieth century was transformed in dramatic and profound ways by the Russian Chinese and Cuban revolutions. In Three Revolutions the stories of these epoch defining events are told together for the first time. At the heart of each revolution was an epic journey: Lenin's 1917 return to Russia from exile in Switzerland; Mao's Long March of 1934-35 covering some 6 000 miles across China; and Fidel Castro's return to Cuba in 1956 following his exile in Mexico. Told in tandem with these are the corresponding journeys of three extraordinary journalists: John Reed, Edgar Snow and Herbert L. Matthews whose electric testimony from the frontlines of each revolution would make a decisive contribution to how these revolutions were understood in the wider world. Here in Simon Hall's masterful retelling these six remarkable journeys are brought vividly to life. Featuring a stellar cast, extraordinary drama and an epic sweep, Three Revolutions raises fundamental

questions about the nature of political power the limits of idealism and the role of the journalist questions that remain of utmost urgency today Index to IEEE Publications Institute of Electrical and Electronics Engineers,1975 Issues for 1973 cover the entire IEEE technical literature **American Book Publishing Record** ,1983-04
