transformations in personnel technology and strategic goals are slowly driving a wedge between China's two most powerful institutions. Until recently, relations between the CCP and PLA were harmonious but as the PLA becomes increasingly professionalized and autonomous, so its unconditional loyalty to the ruling Party may weaken. The changing relationship between the CCP and PLA, he argues, is likely to have profound implications for China's own political development and the balance of power in the Asia Pacific region. Sorace, Ivan Franceschini, Nicholas Loubere, 2019-06-25 *Afterlives of Chinese Communism* comprises essays from over fifty world renowned scholars in the China field from various disciplines and continents. It provides an indispensable guide for understanding how the Mao era continues to shape Chinese politics today. Each chapter discusses a concept or practice from the Mao period, what it attempted to do, and what has become of it since. The authors respond to the legacy of Maoism from numerous perspectives to consider what lessons Chinese communism can offer today and whether there is a future for the egalitarian politics that it once promised. *Chinese Politics and Foreign Policy under Xi Jinping* Arthur S. Ding, Jagannath P. Panda, 2020-11-23 This book focuses on China's future under Xi Jinping's authoritarian leadership by examining various facets of the political, economic, social, and foreign policy trajectories of contemporary China. It assesses Xi Jinping's power dynamic as the core leader of the Communist Party of China (CPC) and analyses the impact of Xi's signature domestic policies which demonstrate his political authority within the domestic sphere. Moreover, the book presents Xi's pro-active, assertive, and action-oriented outlook as a foundation for China's diplomacy in the new era. Bringing together an international set of experts in the field who explore critical facets of China under Xi Jinping that deeply influence the regional as well as the global order, the book investigates the impact of Chinese initiatives such as the Grand Belt and Road Initiative (BRI), the Asian Infrastructure Investment Bank (AIIB), and the BRICS New Development Bank (NDB). Importantly, the book illustrates US-China relations and outlines how this relationship will intensify in the post-COVID-19 era, which is poised to be one of the biggest challenges and turning points of the Asian Century. Offering a timely insight into China's future and the trajectory of Xi Jinping's consolidation of power, this book will be of interest to academics in the fields of China Studies, Asian and International Politics, and International Relations.
