The volume represents a range of perspectives from the conference as a whole event to the conference as a system of potential genres within a given discourse community. Some discourse features of conference language are examined in detail such as strategies for politeness and other interpersonal management during presentations and discussions. The pedagogical implications of conference research are also addressed and indeed there is a growing need for such a focus. Novice conference participants need explicit linguistic description of and training in the relevant genres to enable them to become fully fledged members of their professional discourse communities. Additionally the work in this volume makes a valuable contribution to the understanding of the intercultural and educational dimensions of the increasing dominance of English as an international lingua franca in conferences and beyond **The Art of Good Speech** James Howard McBurney,Ernest J.
