

4th year Projects: Overview

The 4th year research project provides students with a challenging opportunity to plan, undertake and report on a limited program of independent research into a real Engineering problem. The project can involve different tasks including a review of the literature, laboratory experimentation, analytical work, numerical simulations, and industrial involvement. The project can also involve the development of a design and presentation of a prototype.

Different departments have different requirements for the projects, so that the guidelines presented in these resources are general in nature. You must always check the particular requirements of your department so that you can then apply these guidelines successfully.
