

# Significant NRP 8th edition practice changes

Change	NRP 7 <sup>th</sup> Edition	NRP 8 <sup>th</sup> Edition
Umbilical cord management plan added to 4 pre-birth questions, replacing "How many babies?"	The 4 pre-birth questions: (1) Gestational age? (2) Amniotic fluid clear? (3) How many babies? (4) Additional risk factors?	The 4 pre-birth questions: (1) Gestational age? (2) Amniotic fluid clear? (3) Additional risk factors? (4) Umbilical cord management plan?
Initial steps reordered to better reflect common practice.	Initial steps: Warm and maintain normal temperature, position airway, clear secretions if needed, dry, stimulate.	Initial steps: Warm, dry, stimulate, position airway, suction if needed.
An electronic cardiac monitor is recommended earlier in the algorithm	An electronic cardiac monitor is the preferred method for assessing heart rate during cardiac compressions.	When an alternative airway becomes necessary, a cardiac monitor is recommended for the most accurate assessment of the baby's heart rate.
Epinephrine IV/IO & endotracheal doses have been simplified for educational efficiency. The dosage range is unchanged. Additional research required	Dose range for IV/IO : 0.01 to 0.03 mg/kg ( equal to 0.1 to 0.3 mL/kg) Endotracheal dose range : 0.05 to 0.1 mg/kg ( equal to 0.5 to 1 mL/kg)	Suggested initial IV or IO doses : 0.02 mg/kg ( equal to 0.2 mL/kg) Suggested endotracheal dose : 0.1 mg/kg ( equal to 1mL/kg)
Epinephrine intravenous/intraosseous (IV/IO) flush volume increased.	Flush IV/IO epinephrine with 0.5 to 1 mL normal saline	Flush IV/IO epinephrine with 3 mL normal saline (applies to all weights and gestational ages)
Expanded timeframe for cessation of resuscitative efforts	If there is a confirmed absence of heart rate after 10 minutes of resuscitation, it is reasonable to stop resuscitative efforts; however, the decision to continue or discontinue should be individualized.	If confirmed absence of HR after all appropriate steps performed, consider cessation of resuscitation efforts around 20 minutes after birth (decision individualized on patient and contextual factors).

## **6th Edition Nrp Changes:**

**Disorders of the Neonatal Airway** Janet Lioy, Steven E. Sobol, 2015-01-07 Disorders of the Neonatal Airway serves as a comprehensive multidisciplinary resource for all practitioners who care for neonates with airway disorders. With the evolution of advances in neonatology and neonatal airway care over the past three decades, the survival rate and life expectancy of premature newborns have dramatically increased to well over 50% in 24-25 week gestation infants. Unfortunately, survival with long-term intubation has brought a corresponding increase in acquired airway disorders needing collaborative high-level neonatal and otolaryngological care. Additionally, with the advent of fetal therapy, congenital airway disorders now make up a substantial number of neonates with complex airway disorders. Because of this fact, there has been increased focus on the multidisciplinary evaluation and management of neonatal airway disorders. The book is organized into three sections: the first focuses on Malformations and Deformations, the second focuses on Assessment, Evaluation, and Treatment, and the third discusses Education, Simulation, and Quality. As one of the only comprehensive resources on the topic, Disorders of the Neonatal Airway focuses on a multidisciplinary approach to the neonatal airway. This unique approach makes this reference a must-read for practitioners from many disciplines. The book is organized into three sections: the first focuses on Malformations and Deformations, the second focuses on Assessment, Evaluation, and Treatment, and the third discusses Education, Simulation, and Quality. As one of the only comprehensive resources on the topic, Disorders of the Neonatal Airway focuses on a multidisciplinary approach to the neonatal airway. This unique approach makes this reference a must-read for practitioners from many disciplines.

**Neonatal Certification Review for the CCRN and RNC High-Risk Examinations** Keri R. Rogelet, Ann J. Brorsen, 2015 Review Guides Certification Prep Pocket Guides

**Advances in Pediatrics, 2025** Jane Carver, Ronald Hirschl, Surendra Varma, Charlotte Lewis, 2025-08-28 Advances in Pediatrics reviews the year's most important findings and updates within the field in order to provide pediatricians and primary care providers with the current clinical information they need to improve patient outcomes. A distinguished editorial board led by Dr. Carol Berkowitz identifies key areas of major progress and controversy and invites preeminent specialists to contribute original articles devoted to these topics. These insightful overviews in pediatrics inform and enhance clinical practice by bringing concepts to a clinical level and exploring their everyday impact on patient care. Contains 19 articles on such topics as pediatric emergencies, the brain-gut connection, infantile seizure-like movement, pediatric mental health, and schools breastfeeding medicine from the perspective of a pediatrician, quality improvement strategies in pediatric healthcare, and more. Provides in-depth clinical

reviews in pediatrics providing actionable insights for clinical practice Presents the latest information in the field under the leadership of an experienced editorial team Authors synthesize and distill the latest research and practice guidelines to create these timely topic based reviews      BEDSIDE CLINICS IN PAEDIATRICS Sibarjun Ghosh,2016-06-01 This book contains analytical presentations of the science of Clinical Paediatrics Each section of the book has lucid and systematic description of history taking and clinical examination followed by diagnostic clinical information on common cases in Paediatric Medicine      Comprehensive Healthcare Simulation: Emergency Medicine Christopher Strother,Yasuharu Okuda,Nelson Wong,Steven McLaughlin,2021-02-11 This is a practical guide to the use of simulation in emergency medicine training and evaluation It covers scenario building debriefing and feedback and it discusses the use of simulation for different purposes including education crisis resource management and interdisciplinary team training Divided into five sections the book begins with the historical foundations of emergency medicine as well as education and learning theory In order to effectively relay different simulation modalities and technologies subsequent chapters feature an extensive number of practical scenarios to allow readers to build a curriculum These simulations include pediatric emergency medicine trauma disaster medicine and ultrasound Chapters are also organized to meet the needs of readers who are in different stages of their education ranging from undergraduate students to medical directors The book then concludes with a discussion on the future and projected developments of simulation training Comprehensive Healthcare Simulation Emergency Medicine is an invaluable resource for a variety of learners from medical students residents and practicing emergency physicians to emergency medical technicians and health related professionals      Comprehensive Neonatal Nursing Care, Sixth Edition Carole Kenner,Leslie Altimier,Marina V. Boykova,2019-08-28 Praise for the Fifth Edition This book provides a complete look at neonatal healthcare delivery It includes discussions of contemporary topics of interest such as informatics genetics global health and family centered care which are vital to providers caring for neonates today The case studies and evidence based practice dialogues provide great opportunities for further reflection The book is useful to a wide audience in nursing including undergraduate and graduate nursing students practicing neonatal and pediatric nurses and advanced practice nurses who care for neonates Score 92 4 Stars Doody s Medical Reviews The sixth edition of this acclaimed neonatal nursing text is completely updated to encompass the most current research findings and strategies for providing cost effective and evidence based care It continues to address neonatal care from a physiologic and pathophysiologic perspective with a major emphasis on nursing management at the bedside and advanced practice level It examines each neonatal body system and describes evidence based interventions that assist in understanding the why behind various clinical presentations Integrative management is threaded throughout the text along with extensive research findings to support practice strategies and rationales for sound clinical decision making Case studies evidence based practice boxes QSEN competencies and online resources help to amplify and reinforce content New to the Sixth Edition New technologies including neonatal health care
