

A Good Student

Lei Huang

A Good Student:

Helping At-risk Students Jill Waterman, Elizabeth Walker, 2009-01-01 Engaging activity based and effective this widely used group counseling curriculum the SPARK program is designed for flexible implementation in school or clinical settings The program helps youth build skills for school success and social emotional growth while exploring such crucial topics as personal goals ethnic identity and prejudice peer pressure violence prevention and family relationships Featured are 36 reproducible handouts and forms plus Spanish language versions of the 32 handouts in a large size format with lay flat binding for ease of use New to This Edition Revised and expanded to incorporate new findings and field tested strategies New module on male female relationships New sessions on emotion regulation communication and relational aggression Strategies for whole class implementation have been added Nearly half of the 68 reproducibles are new or revised An Introduction to Discourse Analysis James Paul Gee, 2014-02-03 Discourse analysis considers how language both spoken and written enacts social and cultural perspectives and identities Assuming no prior knowledge of linguistics An Introduction to Discourse Analysis examines the field and presents James Paul Gee s unique integrated approach which incorporates both a theory of language in use and a method of research An Introduction to Discourse Analysis can be used as a stand alone textbook or ideally used in conjunction with the practical companion title How to do Discourse Analysis A Toolkit Together they provide the complete resource for students studying discourse analysis Updated throughout the fourth edition of this seminal textbook also includes two new chapters What is Discourse to further understanding of the topic as well as a new concluding section A new companion website www.routledge.com/cw/gee features a frequently asked questions section additional tasks to support understanding a glossary and free access to journal articles by James Paul Gee Clearly structured and written in a highly accessible style An Introduction to Discourse Analysis includes perspectives from a variety of approaches and disciplines including applied linguistics education psychology anthropology and communication to help students and scholars from a range of backgrounds to formulate their own views on discourse and engage in their own discourse analysis This is an essential textbook for all advanced undergraduate and postgraduate students of discourse analysis *What Makes Students Tick?* Udoh Elijah Udom, 2014-09-29 The educational system is societys best ally and should not be allowed to break down Our objective in this study was to identify the causes of high dropout rates and low passion for learning among college students The common view that students are lazy or lacking interest in education is unfounded On the contrary we found that but for factors beyond their control most students would work hard to achieve their educational objectives To avoid the judgmental trap students were asked to identify the factors that would unlock their passion for learning The factors identified by the students are analyzed in this book It is hoped that students parents teachers and school authorities will find this book a light to their path Udoh Elijah Udom Students lose interest in education and drop out of school for a number of reasons Dr Udom rightly turned to us the students to find out the factors that would restore our

confidence in the education system and make us enroll and remain in school till graduation I strongly recommend this book to my fellow students Joseph J Brown Student Our school system has experienced dramatic developments in recent decades including low motivation to learn among college students Dr Udoms book highlights the causes of students lack of passion for learning and offers recommendations for a sustainable recruitment and retention of students This book is one of the best that has been written on this topic and is strongly recommended as a reference material Dr William H Kraus associate professor Argosy University Nashville campus *School-Based Interventions for Students with Behavior Problems* Julie

Bowen,William R. Jenson,Elaine Clark,2003-12-31 Although there are several books published on behavioral problems this is the first book that provides a variety of proven classroom strategies in a step by step format that educators can implement and incorporate into their classroom routine and curriculum A helpful reference and instructional guide of over 100 interventions for managing and reducing behavior and learning problems in children and adolescents Each intervention is written in an easy to follow format which includes the targeted behavior age group goal materials needed implementation steps and troubleshooting ideas **Gender, Equality and Education from International and Comparative**

Perspectives David Baker,Alexander W. Wiseman,2009-04-03 Investigates the often controversial relationship between gender equality and education from international and comparative perspectives This volume also investigates whether gender equality in education is really being achieved in schools around the world or not *Who is the Good High School Student?* Greg Thompson,2011 Schooling is one of the core experiences of most young people in the Western world This study examines the ways that students inhabit subjectivities defined in their relationship to some normalised good student The idea that schools exist to produce students who become good citizens is one of the basic tenets of modernist educational philosophies that dominate the contemporary education world The school has become a political site where policy curriculum orientations expectations and philosophies of education contest for the right way to school and be schooled For many people schools and schooling only make sense if they resonate with past experiences The good student is framed within these aspects of cultural understanding However this commonsense attitude is based on a hegemonic understanding of the good rather than the good student as a contingent multiplicity that is produced by an infinite set of discourses and experiences In this book author Greg Thompson argues that this understanding of subjectivities and power is crucial if schools are to meet the needs of a rapidly changing and challenging world As a high school teacher for many years Thompson often wondered how students responded to complex articulations on how to be a good student How a student can be considered good is itself an articulation of powerful discourses that compete within the school Rather than assuming a moral or ethical citizen this study turns that logic on it on its head to ask students in what ways they can be good within the school Visions of the good student deployed in various ways in schools act to produce various ways of knowing the self as certain types of subjects Developing the postmodern theories of Foucault and Deleuze this study argues that schools act to teach students to know

themselves in certain idealised ways through which they are located and locate themselves in hierarchical rationales of the good student Problematising the good student in high schools engages those institutional discourses with the philosophy history and sociology of education Asking students how they negotiate or perform their selves within schools challenges the narrow and limiting ways that the good is often understood By pushing the ontological understandings of the self beyond the modernist philosophies that currently dominate schools and schooling this study problematises the tendency to see students as fixed measurable identities beings rather than dynamic evolving performances becomings This book suggests that there is more to becoming good than sitting quietly in class and doing well on tests Students are daily involved in complex negotiations between competing expectations of the good and continually try to navigate what is a very complex terrain These negotiations impact on their engagement with and expectations of schooling It informs their behaviour their relationships with each other and with authority figures Through asking students their experiences and understandings of what constitutes a good student a vastly different education terrain opens up than what is often understood This book offers unique insights on high school students in the new millennia For those studying teaching and for those working with student teachers in university contexts it offers a different perspective on how school students understand school and their interactions with teachers It argues that through uncovering these student voices a more subtle and nuanced pedagogy can evolve Who is the Good High School Student is an important book for scholars conducting research on high school education as well as student teachers teacher educators and practicing teachers alike

The Discourse Studies Reader Johannes Angermüller, Dominique Maingueneau, Ruth Wodak, 2014-06-19 Discourse Studies is an interdisciplinary field studying the social production of meaning across the entire spectrum of the social sciences and humanities The Discourse Studies Reader brings together 40 key readings from discourse researchers in Europe and North America some of which are now translated into English for the first time Divided into seven sections Theoretical Inspirations Structuralism versus Pragmatics From Structuralism to Poststructuralism Enunciative Pragmatics Interactionism Sociopragmatics Historical Knowledge and Critical Approaches The Discourse Studies Reader offers a comprehensive overview of the main currents in discourse studies both discourse theory and discourse analysis With short introductions elaborating the broader context the sections present key selections from a variety of disciplinary backgrounds by placing them into their respective epistemological traditions The Discourse Studies Reader is an indispensable textbook for students and scholars alike who are interested in discourse theoretical questions and working with discourse analytical methods
