Language of African Literature Edmund L. Epstein, Robert Kole, 1998 In this anthology some of the most prolific and widely read African novelists are analyzed by some of the most advanced African linguists from two divergent but mutually illuminating perspectives a sophisticated linguistic and cultural analysis of their works as world class literary products and a cross cultural analysis of the rich influence of one or more of the over 3 000 indigenous African languages on the English language writing style of these African authors

Indian Linguistics ,1982

An Introduction to the Language of

Literature Norman Francis Blake, 1990 The aim of this book is to explain style in terms which do not presuppose too extensive an acquaintance on the part of the reader with linguistic terminology Its orientation is not basically theoretical It attempts to provide help in a pragmatic way for those who recognize the importance of language in literature but who do not know where to start or how to exploit the particular knowledge and skills they possess Contemporary British Poetry

Francesco Dragosei, 1989 An Introduction to Cognitive Linguistics Friedrich Ungerer, Hans-Jörg Schmid, 1996 Cognitive linguists share the belief that language is based on our experience of the world. Although scientific in its claims, cognitive linguistics appeals to the intuitive feeling that our use of language is related to how we perceive things and situations around us. This comprehensive text provides a clear introduction to the major approaches that are guided by these assumptions. It is the first text to draw together all the important aspects of both cognitive semantics and syntax, and it includes original proposals for a cognitive theory of word formation and cognitive hierarchies. *An Introduction to Cognitive Linguistics* explains the central concepts and the assumptions on which they are based in a clear and logical style, tracing their historical roots in linguistics or psychology. Chapters consider the mental process of categorization and its result, the cognitive categories which influence our use of words, the role of metaphor for understanding abstract concepts, and analyse attempts to define clause patterns, word classes, and other aspects of syntax based on general cognitive principles. This text also brings together issues

which have not originated in cognitive linguistic research but have benefited from being put on a cognitive basis namely iconicity grammaticalization lexical change and language teaching Essays on Language and Language Teaching in India E. Nageswara Rao,1992 **Literature, Metaphor and the Foreign Language Learner** Jonathan D. Picken,2007-10-23

The value of work with literature has been argued for extensively in the applied linguistics literature The author builds on this by investigating the FL learner s perspective on work of this nature This empirical research sheds light both on how students deal with the challenge of making sense of literature in a foreign language and how they evaluate the experience of doing this The book highlights the role of metaphor in this experience and concludes with two pedagogy related chapters

The Variorum Edition of the Poetry of John Donne: pt. 1. The holy sonnets John Donne,2005 Based on an exhaustive study of the manuscript and print history of Donne s poetry this edition presents newly edited critical texts of the poems and a comprehensive digest of the critical scholarly commentary on them from Donne s time forward Textual introductions briefly locate the poems in the context of Donne s life or poetic development outline the 17th century textual history of the poems and sketch the treatment of the text by modern editors A detailed textual apparatus presents variants collated from many sources and traces the lines of textual transmission Provided by publisher **Language and Text** Ravīndranātha Śrīvāstava,1992 *Style* ,1980 Classical Hebrew Poetry Wilfred G.
