A Map Of Heaven:

A Map of Heaven Henry Normal, 1995* **The Map of Heaven** Eben Alexander, 2014-10-07 The author of the 1 New York Times bestseller Proof of Heaven teams up with the sages of times past modern scientists and with ordinary people who have had profound spiritual experiences to show the reality of heaven and our true identities as spiritual beings When Dr Eben Alexander told the story of his near death experience and his vivid journey to the other side many readers wrote to say it resonated with them profoundly Thanks to them Dr Alexander realized that sharing his story allowed people to rediscover what so many in ancient times knew there is more to life and to the universe than this single earthly life Dr Alexander and his coauthor Ptolemy Tompkins were surprised to see how often his readers visions of the afterlife synced up with each other and with those of the world s spiritual leaders as well as its philosophers and scientists In The Map of Heaven he shares the stories people have told him and shows how they are echoed both in the world s faiths and in its latest scientific insights It turns out there is much agreement across time and terrain about the journey of the soul and its survival beyond death In this book Dr Alexander makes the case for heaven as a genuine place showing how we have forgotten but are now at last remembering who we really are and what our destiny truly is The Map of Heaven takes the broad view to reveal how modern science is on the verge of the most profound revolution in recorded history all around the phenomenon of consciousness itself

The Map of Heaven Eben Alexander, Ptolemy Tompkins, 2014-10-07 When Dr Eben Alexander wrote about his own startling near death experience in Proof of Heaven he was contacted by countless people from all walks of life His story had touched them personally and they in turn had their own miraculous experiences of the afterlife to share with Eben In The Map of Heaven Eben recounts the astonishing stories he has heard on his travels from near death experiences and encounters with angelic beings to inspiring messages from departed loved ones Each account helps us to understand just how vast the universe really is Drawing on these accounts and lessons from religious leaders philosophers and scientific investigations into the role of consciousness Eben explores our true place in the universe and what exactly exists beyond death
