to its survival neither church nor crown would have countenanced the group's anticlerical and antimonarchist ideas. At its height the Illuminati numbered 2 500 with members across Europe including some of the period's leading thinkers. Yet just 12 years after the group's founding it was disbanded by a governmental edict and the Illuminati ceased to exist. Or did it? For nearly 250 years references to the Illuminati and its alleged influence on major world events have continued to resurface. There are those who claim the Illuminati is much older than its first recorded incarnation suggests, dating its origins to the time of the Pyramids; and others who believe the group is literally not of this planet but part of an alien culture bent on taking over the earth. This book looks at the reality and the myths, questions the allegations and explores how fears about the group have taken many different forms, whether fear of intellectuals during the Enlightenment or fear of communists during the McCarthy era. An internet search reveals that belief in the group's shadowy influence is positively thriving: what does that say about us today? And are we right to be afraid?

Illuminati Are They Really What the Stories Present Them To Be or Are They Something Entirely Different? Keep Reading and Find Out!

As far as secret societies that supposedly have complete control over the world are concerned, the Illuminati should be at the top of any conspiracy theorist's list. Who exactly are the Illuminati? What are they supposed to represent? Why the shroud of mystery? Is it possible that they are hatching some nefarious plans for the world, or that they simply want to make the world a better place if they even exist at all? The Order of the Illuminati and other secret societies have frequently been the subject of heated debates about their role in human history, particularly during the Renaissance. However, as the number of people who believe that the Illuminati secretly controls the world, or that the whole thing is a hoax, is increasing, more and more facts about the Illuminati have been twisted into falsehoods and myths, making it difficult to discern what is true and what is false. As a result, obtaining a truth regarding the Illuminati Order may be difficult, considering that their history is often rewritten and even changed by those in power. Furthermore, like any other secret organization, the Illuminati Order is meant to be kept hidden. Still, some things are not meant to stay hidden forever. If you are looking for the truth and accurate answers about Illuminati, you are in the right place. This book seeks to construct a more accurate image of the Illuminati Order based on verifiable evidence, much of which is written and accounted for by certain Secret Societies initiates, as it contains valuable information on the Illuminati, including the history, aims, beliefs, and several well-known conspiracy theories related to the group. Here is what this Illuminati guide for conspiracy lovers can offer you: The Illuminati's early beginnings and their religious background; The Order's three grades; what is the meaning behind The Illuminati and modern conspiracy theories; influence on the popular culture; Symbolism, rituals, and occultism in the Illuminati Order; The link between Illuminati and Freemasons explained; The Illuminati's political agenda, strategies, and plans for the world; what is real and what is made up; And much more.
