

## Essay on A House On Fire

One day, as I was returning from the playground, I saw a house on fire on the way. I rushed towards the burning house. When I reached there, I saw many people outside the house. The fire was spreading. Some of the inmates came out of the house with burns and injuries (blisters).

The neighbours tried their level best to extinguish the fire but they could not. There was no fire extinguisher system in the house. The staff of the fire brigade fought bravely with the fierce flames. Water pipes were laid and the fire brigade officials made an effort to control the fire. The inmates whom he had rescued had severe burn injuries. The fire brigade brought the fire under control after one hour of valiant efforts. When the flames were controlled, the house was found to be badly damaged.

But thank God that there was no loss of human life. After enquiry, it was found that the bursting of gas cylinder in the kitchen was the cause of the fire.

*Of Women and the Essay* brings together forty six American and British women essayists whose work spans nearly four centuries. The contributions of these essayists prove that women have been significant participants in the essay tradition since the genre's modern beginnings in the sixteenth century. Many of these essayists such as Eliza Haywood, Fanny Fern, Gertrude Bustill, Mossell, Agnes Repplier, and Alice Meynell achieved significant success as writers within whatever essay form ruled the day. Others bent the rules though often imperceptibly to make room for themselves. Collectively they represent a missing piece in the larger history of the essay. In *Of Women and the Essay*, Jenny Spinner contextualizes the broad range of literary essays included within the chronological development of the genre. She makes a compelling argument that women have constructed their own tradition in the essay genre often utilizing periodic traits of the essay to their own advantage. At the same time she suggests that the personal essay's demands on the essayist required both a public and personal authorization that proved challenging for women essayists in general and for women of color in particular. The appendix catalogs the works of nearly 200 female essayists and should inspire further reading. As a whole the volume lifts women writers from the cutting room floor of essay scholarship and returns them to their rightful place in the essay canon.
