A Long Day At The End Of The World:

Finding the Way to 'Long Day's Journey Into Night' William Davies King, 2024-09-03 Eugene O'Neill wrote his most enduring and important plays after he won international acclaim as the first and only American playwright to receive the Nobel Prize in Literature in 1936. In the midst of the Great Depression with his health failing and spirits sunk, he and his third wife, former actress Carlotta Monterey, moved to California to escape the materialism and commercialism of a declining West, and they built a new home called Tao House. A reasonably good translation of tao is the way, and in this house, which was largely the creation of Carlotta, he found the way to his most famous play, *Long Day's Journey Into Night*. As an unusually explicit autobiographical drama, this play returns to 1912, the outset of O'Neill's writing career when he confronted tragedy in his family story and found a way to dramatize his mother, father, brother, and himself in a way that has resonated with audiences since its publication and production in 1956. But this book argues that the play originates as much in the moment of its creation, 1939-1941, in the family relationships, the historical circumstances, and the fact that this work would represent a moment of closure of his great career. Key to this heroic story of creation is the intervention of his wife Carlotta, whose diaries enable a day-to-day observation of how the play was written. She was the driving force behind the design of Tao House, and she managed the rhythms and patterns of life within its architecture. It was her masterpiece, just as *Long Day's Journey* was his. This book develops a close reading of their house and marriage and also uses many of O'Neill's previous plays to illuminate the breakthrough of *Long Day's Journey*. This book is the most granular and, at the same time, the most far-reaching inquiry into how this quintessential play was written and almost not written and how it came into the world. The Collective Gregory Allen Scott, 2025-02-17 *The Collective* is a fiction piece that explores the overarching effects of negativity and positivity in the world on both an individual and worldwide level. The book explores racism, power, motivated people, religion, misogyny, and the critical importance for all human beings to question the value of positive and negative thinking in their personal lives. **The Quarterly journal of prophecy**, 1853 **Library of the World's Best Literature, Ancient and Modern: Songs, hymns and lyrics** Charles Dudley Warner, 1898 *A Library of American Literature* Edmund Clarence Stedman, Ellen Mackay Hutchinson, 1889 Art and Handicraft in the Woman's Building of the World's Columbian Exposition, Chicago, 1893 Maud Howe Elliott, 1893 **Newsweek**, 1986 **Christian Budget and News of the Day**, 1891 The history of Israel, tr., ed. by R. Beginning with his grueling summertime infantry basic training at Fort Benning, Georgia, he depicts the day-to-day challenges and triumphs of life in the U.S. Army's oldest and most storied unit from the 2001 Presidential Inauguration to the recovery efforts following the September 11 attacks.
