 source of expertise The book brings together researchers and practitioners from diverse academic fields including library
 perspectives and presents interdisciplinary discussions from both theoretical and applied areas It is unique in its goal of
 bringing educators and librarians together to explore the challenges that are faced by students and faculty in any time any
 place any path and any pace learning In spite of the fact that the mobile revolution has definitively arrived students and
 faculty alike aren t ready to make the leap to mobile learning The pressures of technological advances along with the
 changing nature of learning will demand increasingly profound changes in education Researchers have begun to address this
 issue but the revolution in mobile communication has not been accompanied by a concomitant growth in pedagogical
 resources for educators and students More importantly such growth needs to be under girded by sound learning theories and
 examples of best practice Provides a hands on resource useful to both novices and experts for technology enabled teaching
 and learning Gives both discipline specific and cross disciplinary perspectives Discusses discipline specific mobile
 applications Offers an opportunity to meet the needs of contemporary learners and foster their competencies as lifelong
