care and attention to detail we give every book we publish *A History of World Societies: From the French Revolution to the present (Chapters 25-40)* John P. McKay, 1988 [From Societas to World Society](#) Volker H. Schmidt, 2025-05-29 From Societas to World Society offers a genealogy of what is arguably sociology's most important concept that of society. The book covers this concept's entire intellectual history from its first systematization in Roman law 2 500 years ago to its crystallization in what Schmidt calls today's default model informing both empirical research and theoretical logic in the social sciences which he shows to be highly problematic. As an alternative Schmidt suggests a conceptualization building upon Niklas Luhmann's theory of world society which can be utilized for overcoming the former's Eurocentrism and to lay the groundwork for a genuinely global social science

**Teaching Global History** Alan J. Singer, 2012-04-27 Teaching Global History challenges prospective and beginning social studies teachers to formulate their own views about what is important to know in global history and why. It explains how to organize the curriculum around broad social studies concepts and themes and student questions about humanity's history and the contemporary world. All chapters include lesson ideas a sample lesson plan with activity sheets primary source documents and helpful charts graphs photographs and maps. High school students' responses are woven in throughout. Additional material corresponding to each chapter is posted online at [http://people.hofstra.edu/alan\\_j\\_singer](http://people.hofstra.edu/alan_j_singer). The traditional curriculum tends to highlight the Western heritage and to race through epochs and regions leaving little time for an in-depth exploration of concepts and historical themes for the evaluation of primary and secondary sources and for students to draw their own historical conclusions. Offering an alternative to such pre-packaged textbook outlines and materials this text is a powerful resource for promoting thoughtful reflection and debate about what the global history curriculum should be and how to teach it
