Menzies, Rachel E. Menzies, Genevieve A. Dingle, 2022-08-11 Clients enter therapy grappling with a range of difficulties They don't speak in diagnostic terms but instead focus on the everyday problems that confront them Their struggles may include isolation loneliness anxiety guilt and regret and problems making decisions in a world that offers seemingly endless choice In contrast the cognitive behavior therapist is trained in the language of conditioning and extinction avoidance and safety behaviors behavioral activation and attentional biases This book explores the ideas of the existentialist philosophers as a bridge between the suffering client and technically trained clinician The volume is not a rejection of cognitive behavior therapy CBT but seeks to place CBT in the broader context of the most popular philosophic tradition of the 19th and 20th centuries Therapists versed in existentialism argue that the individual's starting point is characterized by a sense of disorientation in the face of an apparently meaningless and absurd world Each individual must become solely responsible for giving meaning to life and living it passionately and authentically Each of us must confront the Big 5 existential issues of death isolation identity freedom and meaning and find our solutions to these problems The present volume explores each of these existential themes in turn Each section opens with a theoretical chapter describing the relevant existential dilemma and its impact on human experience The second chapter in each section explores its relationship to mental health disorders and psychopathology The third chapter in each section explores the evidence for treating the existential issue from a CBT framework This book will be of value to those interested in CBT philosophy and mental health and will appeal to psychotherapists clinical psychologists and psychiatrists *A Higher Purpose* Jim Reger, 2012-02-01 This is a book of thoughts I've always been intrigued by thoughts And now in my mid sixties after a few successful careers watching my kids grow into adults and having celebrated my 40th wedding anniversary it has become clear to me that my life is definitely a direct reflection of the thoughts that I have held over all those years I have read about this notion and while intuitively it made sense to me I now can say with clarity that my life is living proof that the emotional intensity and amount of time that I applied to a thought had a direct relationship to what results showed up in my life My life has been a search for meaning and significance The thoughts and quotes in this book have provided me with the greatest inspiration for reflection I hope you
