The Non-identity Problem and the Ethics of Future People David Boonin,2014 David Boonin presents a new account of the non identity problem a puzzle about our obligations to people who do not yet exist Our actions sometimes have an effect not only on the quality of life that people will enjoy in the future but on which particular people will exist in the future to enjoy it In cases where this is so the combination of certain assumptions that most people seem to accept can yield conclusions that most people seem to reject The non identity problem has important implications both for ethical theory and for a number of topics in applied ethics including controversial issues in bioethics environmental ethics and disability ethics It has been the subject of a great deal of discussion for nearly four decades but this is the first book length study devoted exclusively to its examination Boonin begins by explaining what the problem is why the problem matters and what criteria a solution to the problem must satisfy in order to count as a successful one He then provides a critical survey of the solutions to the problem that have thus far been proposed in the sizeable literature that the problem has generated and concludes by developing and defending an unorthodox alternative solution one that differs fundamentally from virtually every other available approach

**Safe Zone** Thomas G. Blacklock,2007-08-27 The premise of this work of fiction is that major Mexican drug traffickers can operate with impunity in Mexico enjoying the protection of the Mexican Government as they flood the United States with heroin cocaine methamphetamine and marijuana The heroes of this work of fiction have likened the Mexican Government protection of drug traffickers to the protection the North Vietnamese Army and Viet Cong received from the governments of Cambodia and Laos during the Vietnamese War As veterans of that war my heroes witnessed how these governments provided safe zones for the North Vietnamese Army and Viet Cong from the American Military and as Veteran DEA Special Agents can see how the same thing is happening in Mexico with major drug traffickers who have the financial means to buy off any government official Using a Special Operations Team originally assigned to Bolivia to sneak into Mexico and do unilateral enforcement operations in Mexico my heroes not only hope to wreck havoc with the major traffickers but also hope to send a signal to those in the Mexican government who choose to protect these traffickers that they can not offer the traffickers a Safe Zone
