## **A Planetary Fairytale Acceptance:**

*A Planetary Fairytale* Simonne Murphy, 2014-07-08 *A Planetary Fairytale Acceptance* is the first of a planned series of children's books about Earth and other planets in our solar system. This one begins with an argument among Sun, Moon, and the planets about whether to accept changes that followed the 2006 discovery of Eris, a planet orbiting beyond Pluto and larger than it. Subsequent decisions of astronomers promoted the largest asteroid Ceres to planet too. Although more recently they've decided to call them minor planets and reclassify Pluto as such, this fairytale is about the beginning of the changes. In an entertaining way and without mention of either big word astronomy or astrology, the story is about changes in both since the discovery of Eris. The full color illustrations are paintings of the planets in their relative sizes and colors, not cartoons just round orbs with celestial backgrounds and shading to suggest facial expressions that fit what each planet is saying. Finally, Sun demands that they stop arguing and get along with each other or he will decide which two of them to banish from his solar system. Moon chimes in with a gentler approach, the planets respond, and the fairytale ends quite happily.

*Destroyer from the Lost Planet* Neal Roberts, 2023-03-20 *Destroyer from the Lost Planet* is the enthralling third book in the science fiction series *From Heaven To Earth They Came*. If you like ancient battles of the gods, dashing and romantic heroes and heroines, action-packed plots, and thrilling suspense, then you'll love Neal Roberts' historically inspired tale of ancient lore woven into our modern day struggle for survival. The power-hungry and much-despised Anz, frustrated by the failure of his attack on a summit meeting attended by his Anunnaki foes, begins a campaign to drive a wedge between the Anunnaki and humankind. His devious plan is to persuade Ambassador David Schubert, that Enki half-brother to the Anunnaki king, has always been humanity's enemy, and that David will need the immortality that Anz can bestow in order to save the beloved Queen Inanna from an approaching celestial collision. In the event of hostilities between the Anunnaki and Anz, where Earth will be their battleground, it is clear to everyone that either side would be capable of destroying its enemy's command and control by means of an electromagnetic pulse (EMP) that can be created by detonating a high-capacity nuclear bomb at high altitude. As an EMP would confer a marked advantage upon the first side to use it, it is a highly destabilizing weapon. Anz, having long seethed over ancient slights, is desperate to gain this advantage to wreak vengeance on those who he believes betrayed him. As David struggles to avert a cataclysmic war, he learns of the Anunnaki lore of a Destroyer who, having defeated Anz in ancient times, is destined to return and defeat him once again. With tensions rising on Earth, David and U.S. Navy Commander Catharine Weldon are dispatched on a diplomatic journey to the pyramidion of Enlil, King of Nibiru, where the Destroyer is believed to reside. The Destroyer, long in love with the beautiful Queen Inanna, enters the fray at last. But even he cannot save the Anunnaki and humankind without David's help, for no one but David can approach Anz closely enough to defeat his destructive plans. With the Destroyer's help and with Earth in the balance, can David thwart Anz's plans for world domination? Will David himself prove to be the new Destroyer? this book presents and analyses children s reasonings about fundamental metaphysical problems The first part describes dialogues with children that were constructed on the basis of Descartes Mediations on First Philosophy and which look at children s ideas about the relationships between true and false knowledge mental images and physical objects mind and body personal existence and the external world dreams and reality and the existence of the Supreme Being among others The second part of the book draws on concepts that children of various ages have about psychological and metapsychological aspects of human reality such as cognitive and moral development personal freedom and responsibility the relationships between conscious and unconscious living and non living and about the fundamental drives of an individual for development and expansion of his or her needs and passions for eternal life and for the dreamlike world of fulfilled wishes The book presents a systematic empirical and theoretical study of the problems some of which were touched on in Piaget s early writing but which he later abandoned and which were only sporadically illuminated by other authors whereas others were completely new to research in developmental psychology at the time It will still be a helpful guide for developmental psychologists teachers educationalists social workers lawyers and other professionals interested in the knowledge that 4 to 14 year old children have about the most fundamental aspects of reality and human beings     **My Pilgrim's Progress**
