Envy And Other Works:

Envy Юрий Карлович Олеша, 1967 This is the most comprehensive collection in English of Olesha's work. It includes eight stories that have been translated especially for the Anchor edition. Back cover **Cultures of the Death Drive** Esther Sánchez-Pardo, 2003-05-01 A study of melancholia, sexuality and representation in literary and visual texts that can be read at the crossroads of psychoanalysis and the arts in modernism

Understanding Mental Objects Meir Perlow, 2003-09-02 The ways in which an individual relates to and perceives other people and his or her objects has always been a preoccupation of psychoanalysis and in recent years a plethora of concepts has grown up in the literature. In this groundbreaking study Meir Perlow sets out to clarify the changing meanings of the different concepts from context to context, discussing in depth the theoretical issues underlying them. The book begins with an historical survey of how mental objects have been understood in the various schools of psychoanalysis as they have developed. These include Freud and his associates, the object relations approaches of Klein, Fairbairn and Bion, orientations derived from ego psychology such as those of Schafer and Kernberg, and the self orientation of Winnicott and Kohut. In Part Two the author discusses the conceptual and clinical issues involved in the major differences between the concepts. Finally in Part Three he delineates three basic meanings of the concepts of mental objects as they have emerged in the literature and shows how they are related to ongoing issues in contemporary psychoanalysis. This long overdue clarification of a complex area with its wide ranging and imaginative grasp of the different theories about objects will be an invaluable reference for all psychoanalysts and psychologists.
