Do you want to know how a quintessentially British brand expands into the Chinese market, how organizations incorporate social media into their communication campaigns or how a department store can channel its business online? What can you learn from these practices and how could it influence your career whether in marketing or not? Marketing 4th edition will provide the skills vital to successfully engaging with marketing across all areas of society, from dealing with skeptical consumers moving a business online and deciding which pricing strategy to adopt through to the ethical implications of marketing to children and being aware of how to use social networking sites to a business advantage. In this edition a broader range of integrated examples and market insights within each chapter demonstrate the relevance of theory to the practice, featuring companies such as Porsche, Facebook and L'Oréal. The diversity of marketing on a global scale is showcased by examples that include advertising in the Middle East, Soberana marketing in Panama and LEGO's expansion into emerging markets. Theory into practice boxes relate these examples back to the theoretical frameworks, models and concepts outlined in the chapter, giving a fully integrated overview of not just what marketing theory looks like in practice but how it can be used to promote a company's success. Video interviews with those in the industry offer a truly unique insight into the fascinating world of a marketing practitioner.
