**The Routledge Handbook of Media Use and Well-Being** Leonard Reinecke, Mary Beth Oliver, 2016-06-23 The Routledge Handbook of Media Use and Well Being serves as the first international review of the current state of this fast developing area of research. The volume provides a multifaceted perspective on the beneficial as well as the detrimental effects of media exposure on psychological health and well being. As a first mover it will define the field of media use and well being and provide an essential resource for research and teaching in this area. The volume is structured along four central considerations. Processes presents concepts that provide a theoretical bridge between media use and well being such as psychological need satisfaction, recovery from stress and strain, self presentation and self enhancement or parasocial interactions with media characters providing a comprehensive understanding of the underlying processes that drive psychological health and well being through media. Moderators examines both risk factors that promote negative effects on well being and protective factors that foster positive media effects. Contexts bridges the gap between theory and real life by illustrating how media use can influence well being and satisfaction in very different life domains covering the full spectrum of everyday life by addressing the public, private and work spheres. Audiences takes a look at the influence of life phases and life situations on the interplay of media use and well being, questioning whether various user groups differ with regard to the effects of media exposure. Bringing together the expertise of outstanding international scholars from multiple disciplines including communication, media psychology, social psychology, clinical psychology and media education, this handbook sheds new light on the role of media in influencing and affecting emotions.

*Christians Shaping Identity from the Roman Empire to Byzantium* Geoffrey Dunn, Wendy Mayer, 2015-07-14 The essays collected in Christians Shaping Identity celebrate Pauline Allen's significant contribution to early Christian, late antique and Byzantine studies, especially concerning bishops, heresy, orthodoxy and christology. Covering the period from earliest Christianity to middle Byzantium, the first eighteen essays explore the varied ways in which Christians constructed their own identity and that of the society around them. A final four essays explore the same theme within Roman Catholicism and oriental Christianity in the late 19th to 21st centuries, with particular attention to the subtle relationships between the shaping of the early Christian past and the moulding of Christian identity today. Among the many leading scholars represented are Averil Cameron and Elizabeth A. Clark.

*The Social Life of Prayer* Andreas Bandak, 2021-03-09 This book brings the theme of prayer into anthropological discussion. Across diverse significant ethnographic case studies, five anthropologists attend to prayers and how they are performed and seen to intervene in the social world. The studies include Pentecostals in Zambia, Charismatic Christians in Ghana, Protestants in Scotland, Eastern Orthodox Christians in Romania and Catholics in Syria. Across these ethnographic cases, the book argues that focusing on the social life of prayer offers a significant way to engage with matters close to people. Prayers are a way to map affect and the affective relationships people hold in what they are oriented towards and care about. Taking its cue from

Marcel Mauss the book invites us to go beyond the individual and see how prayers always point to a broader social landscape of obligation and affective investment Focusing on the social life of prayers the book posits accordingly entices a particular form of situated comparison of diverse Christian traditions that pushes the scholarly conversation on Christianity to consider central questions of agency responsibility and subjectivity Taking up prayer as the object of study this book offers novel anthropological perspectives on Christian life and practice The chapters in this book were originally published a special issue of Religion *Handbook of Critical Education Research* Michelle D. Young, Sarah Diem, 2023-07-25 This handbook offers a contemporary and comprehensive review of critical research theory and methodology Showcasing the work of contemporary critical researchers who are harnessing and building on a variety of methodological tools this volume extends beyond qualitative methodology to also include critical quantitative and mixed methods approaches to research The critical scholars contributing to this volume are influenced by a diverse range of education disciplines and represent multiple countries and methodological backgrounds making the handbook an essential resource for anyone doing critical scholarship The book moves from the theoretical to the specific examining various paradigms for engaging in critical scholarship various methodologies for doing critical research and the political ethical and practical issues that arise when working as a critical scholar In addition to mapping the field contributions synthesize literature offer concrete examples and explore relevant contexts histories assumptions and current practices ultimately fostering generative thinking that contributes to future methodological and theoretical breakthroughs New as well as seasoned critical scholars will find within these pages exciting new ideas challenging questions and insights that spur the continuous evolution and grow the influence of critical research methods and theories in the education and human disciplines
