Food Safety Management Veslemøy Andersen, Huub L. M. Lelieveld, Yasmine Motarjemi, 2023-03-28 Food Safety Management A Practical Guide for the Food Industry Second Edition continues to present a comprehensive integrated and practical approach to the management of food safety throughout the production chain. While many books address specific aspects of food safety, no other book guides you through the various risks associated with each sector of the production process or alerts you to the measures needed to mitigate those risks. This new edition provides practical examples of incidents and their root causes, highlighting pitfalls in food safety management and providing key insights into different means for avoiding them. Each section addresses its subject in terms of relevance and application to food safety and, where applicable, spoilage. The book covers all types of risks e.g. microbial, chemical, physical, associated with each step of the food chain, making it an ideal resource. Addresses risks and controls at various stages of the food supply chain based on food type, including a generic HACCP study and new information on FSMA. Covers the latest emerging technologies for ensuring food safety. Includes observations on what works and what doesn't on issues in food safety management. Provides practical guidelines for the implementation of elements of the food safety assurance system. Explains the role of different stakeholders of the food supply

Metallurgical Transactions, 1989 **Artificial Neural Networks as Models of Neural Information Processing** Marcel van Gerven, Sander Bohte, 2018-02-01 Modern neural networks gave rise to major breakthroughs in several research areas. In neuroscience we are witnessing a reappraisal of neural network theory and its relevance for understanding information processing in biological systems. The research presented in this book provides various perspectives on the use of artificial neural networks as models of neural information processing. We consider the biological plausibility of neural networks, performance improvements, spiking neural networks and the use of neural networks for understanding brain function
