Student Physiotherapist's Companion: A Case-Based Test-Your-Knowledge Guide - E-Book Stuart Porter, 2025-09-04

This expert guide offers a new approach to physiotherapy education. It supports you to formulate your own approach to different scenarios then compare this with what the experts say, helping you learn the facts and how to problem solve at the same time. More than 50 chapters cover a wide variety of topics that physiotherapists will come across in practice, including the ICU, paediatrics, women's health and disability scenarios. Each presents a case study and asks you to develop a diagnosis and treatment plan, followed by the expert view at the end of each case. The Student Physiotherapist's Companion is produced by some of the UK's leading physiotherapy experts, including consultants, academics, managers and clinical interest groups, many of them writing about scenarios that do not appear in any other textbook. More than 50 chapters written by experts in their field. Written with physiotherapy students in mind, it addresses your specific needs. Illustrations support understanding. Varied case studies help to develop a wide range of expertise across different settings.

Nursing for Wellness in Older Adults Carol A. Miller, 2009. Now in its Fifth Edition, this text provides a comprehensive and wellness-oriented approach to the theory and practice of gerontologic nursing. Organized around the author's unique functional consequences theory of gerontologic nursing, the book explores normal age-related changes and risk factors that often interfere with optimal health and functioning, to effectively identify and teach health promotion interventions. The author provides research-based background information and a variety of practical assessment and intervention strategies for use in every clinical setting. Highlights of this edition include expanded coverage of evidence-based practice, more first-person stories, new chapters and clinical tools such as assessment tools recommended by the Hartford Institute of Geriatric Nursing.

Clinical Assessment in Respiratory Care Robert L. Wilkins, Susan Jones Krider, Richard L. Sheldon, 2000. Thoroughly revised and updated, CLINICAL ASSESSMENT IN RESPIRATORY CARE teaches assessment techniques from the most basic skills for the student learning the process of patient care to the more advanced skills for the student or practitioner involved with patients in the intensive care unit. An entirely new section will teach students and practitioners the skills necessary to record patient cases. The Instructor's Manual Test Bank allows instructors to customize their approach to assessment and includes a ready-made selection of test questions.
