

WRITING A THESIS STATEMENT

A thesis statement is ONE sentence in the opening statement of an academic essay which states the main idea of the research. The basic formula for a thesis statement is:

_____ + _____ = Thesis

So, in general, the thesis of an academic essay is the main topic of the essay paired with the writer's position on that topic.

What makes a thesis statement important?

a. A thesis statement helps you:

1. start drafting
2. stay focused
3. narrow your subject
4. have a point of reference to guide your paper

b. A thesis statement serves three purposes:

1. gives a preview to the audience of what the project will discuss
2. presents the categories that will be used to organize the project
3. introduces the order in which the categories will be presented

What is a **GOOD** thesis statement:

1. A good thesis statement is short and simple: it should be no longer than one sentence, regardless of essay length.

Good thesis: *Success is a result of doing the right things consistently.*

Bad thesis: *In a world full of success gurus and books about success, it becomes ever so more important to delineate the one trait that ultimately determines success: doing the right things consistently.*

2. A good thesis statement is limited to one main idea.

Good thesis: *The key to successful dieting is focusing on a specific goal.*

Bad thesis: *The key to successful dieting is focusing on a specific goal, which is also the key to successfully running a business and coaching a football team.*

3. A good thesis statement is a declarative sentence with no qualifiers (*in my opinion, I think, might, maybe, perhaps, etc.*):

Good thesis: *Lebron James' ability to score, pass, and rebound make him the league's most valuable player.*

Bad thesis: *Lebron James' ability to score, pass, and rebound just might make him the league's most valuable player.*

require a new coalition of teachers unions and parents to create a fresh agenda that supersedes corporate interests This study clearly shows that in Chicago as elsewhere urban schooling is intertwined with politics and power By reviewing more than a century of corporate efforts to make education work Shipps makes a strong case that it s high time to look elsewhere perhaps to educators themselves for new leadership *Research in the Schools* ,2000 Canadian Books in Print ,1996
