Secrecy and Methods in Security Research Marieke De Goede,Esmé Bosma,Polly Pallister-Wilkins,2019-08-13 This book analyses the challenges of secrecy in security research and develops a set of methods to navigate encircle and work with secrecy How can researchers navigate secrecy in their fieldwork when they encounter confidential material closed off quarters or bureaucratic rebuffs This is a particular challenge for researchers in the security field which is by nature secretive and difficult to access This book creatively assesses and analyses the ways in which secracies operate in security research The collection sets out new understandings of secrecy and shows how secrecy itself can be made productive to research analysis It offers students PhD researchers and senior scholars a rich toolkit of methods and best practice examples for ethically appropriate ways of navigating secrecy It pays attention to the balance

between confidentiality and academic freedom and integrity The chapters draw on the rich qualitative fieldwork experiences of the contributors who did research at a diversity of sites for example at a former atomic weapons research facility inside deportation units in conflict zones in everyday security landscapes in virtual spaces and at borders bureaucracies and banks The book will be of interest to students of research methods critical security studies and International Relations in general The Open Access version of this book available at [www.taylorfrancis.com](http://www.taylorfrancis.com) has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license **Field Study** Lenore Borzak, 1981-05 Field Study presents a definitive discussion of off campus education eighteen articles by students teachers administrators and work supervisors all writing about their own field study experiences They focus on the process of experiential learning the ways in which a student grows personally and professionally in field study

### **Gender Issues in Field Research** Carol A. B.

Warren, 1988-03 Are there differences in the levels of access given to male and female researchers in the field setting Does gender influence or limit researchers in the types of questions that they are allowed to investigate Warren a well known field researcher addresses these issues using examples from anthropological sociological and organizational research In essence the author shows that ethnography as the polished product of field research cannot be understood without explicitly taking into account the ways the gender of the researcher influences both fieldwork relations and the production of the final report Using a wide range of examples Gender Issues in Field Research successfully discloses gender differences that continue to affect researchers It will serve as an excellent text for field research anthropology or women's studies courses Gender Issues in Field Research would be especially useful in a research methods course and for any researcher who has an investment in conducting nonsexist analyses It brings a different perspective to the continuing development of research methodology from a feminist perspective Feminist Collections Brings a review of gender issues that will be profitable for the beginning field worker as well as those more advanced scholars now keenly attuned to the problematics of reflexivity in this method It is perhaps her section on gender and knowledge that Warren's contribution moves to the leading edge of current concerns about reflexivity and ethnography This volume had an excellent bibliography of recent literature which she has cited and which provides an avenue into this new era and arena of ethnography fieldwork for those who wish to explore *Journal of Nervous and Mental Disease*
