Retinal Degenerative Diseases XX Catherine Bowes Rickman,Christian Grimm,Robert E. Anderson,John D. Ash,Eric Pierce,Joe G. Hollyfield,2025-02-10 This book contains the proceedings of the XVIII International Symposium on Retinal Degeneration RD2018 A majority of those who spoke and presented posters at the meeting contributed to this volume Most blinding CG1 diseases of inherited retinal degenerations have no treatments and age related macular degeneration has no cures despite the fact that it is an epidemic among the elderly with 1 in 3 4 affected by the age of 70 The RD Symposium focused on the exciting new developments aimed at understanding these diseases and providing therapies for them Since most major scientists in the field of retinal degenerations attend the biennial RD Symposia they are known by most as the best and most important meetings in the field The volume presents representative state of the art research in almost all areas of retinal degenerations ranging from cytopathologic physiologic diagnostic and clinical aspects animal models mechanisms of cell death candidate genes cloning mapping and other aspects of molecular genetics and developing potential therapeutic measures such as gene therapy and neuroprotective agents for potential pharmaceutical therapy Significant advances in these areas of retinal degenerations have been made since the last RD Symposium RD2021 These include the role of inflammation and immunity as well as other basic mechanisms in age related macular degeneration several new aspects of gene therapy and revolutionary new imaging and functional testing that will have a huge impact on the diagnosis and following the course of retinal degenerations as well as to provide new quantitative endpoints for clinical trials The retina is an approachable part of the central nervous system CNS and there is a major interest in neuroprotective and gene therapy for CNS diseases and neurodegenerations in general It should be noted that with successful and exciting initial clinical trials in neuroprotective and gene therapy including the restoration of sight in blind children the retinal degeneration therapies are leading the way towards new therapeutic measures for neurodegenerations of the CNS Many of the successes recently reported in these areas of retinal degeneration sprang from collaborations established at previous RD Symposia and many of those were reported at the RD2023 meeting and included in the current volume We anticipate the excitement of those working in the field and those afflicted with retinal degenerations is reflected in the volume

October 2017 United States Government Us Army,2017-10-09 This doctrine manual Army Doctrine Reference Publication ADRP 3 0 Operational October 2017 supports land operations doctrine established in ADP 3 0 Operations and is supported by FM 3 0 Operations This publication expands the overarching guidance on unified land operations It accounts for the uncertainty of operations and recognizes that a military operation is a human undertaking It constitutes the Army s view of how to conduct prompt and sustained operations on land and sets the foundation for developing other principles tactics techniques and procedures detailed in subordinate doctrine publications The principal audience for ADRP 3 0 is all members of the profession of arms Commanders and staffs of Army headquarters serving as joint task force or multinational headquarters should also refer to applicable joint or multinational doctrine concerning the range of military operations and joint or multinational forces Trainers and educators throughout the Army will use this publication as well ADRP 3 0 contains numerous changes to the November 2016 version the most significant of which are updates necessary to align with FM 3 0 Operations ADRP 3 0 modifies the definition of unified land operations to account for the consolidation of gains ADRP 3 0 adds the concept of a consolidation area to the operational framework Additional changes include a discussion of peer threats positions of relative advantage multi domain considerations and the consolidation of gains as an Army strategic role These all expand upon unified land operations ADRP 3 0 employs information such as principles and tenets as a means of highlighting key aspects of doctrine Where lists are employed a narrative discussion follows to provide details on the subject They serve as guidelines or tools for readers to more easily remember important doctrinal terms However there remains a need to study doctrine in detail and consider how terms are applied to operations ADRP 3 0 modifies key topics and updates terminology and concepts as necessary These topics include the discussion of an operational environment and the operational and mission variables as well as discussions of unified action law of land warfare and combat power Mission command remains both a philosophy of command and a warfighting function ADRP 3 0 contains five chapters Chapter 1

discusses military operations It describes the variables that shape the nature of an operational environment and affect outcomes The chapter then discusses unified action and joint operations as well as land operations Finally this chapter discusses the importance of training to gain skill in land warfare Chapter 2 discusses the application of operational art It discusses how commanders should consider defeat and stability mechanisms when developing an operational approach It then discusses the elements of operational art and their meanings to Army forces Chapter 3 discusses the Army's operational concept of unified land operations It discusses how commanders apply landpower as part of unified action to defeat the enemy on land and establish conditions that achieve the joint force commander's end state Chapter 3 discusses the principles of unified land operations and the tenets of unified land operations Chapter 4 discusses the operations structure commanders use to array forces and conduct operations It includes a discussion on the addition of a consolidation area to the operational framework It concludes with a discussion on the operational framework used in the conduct of unified land operations Chapter 5 discusses combat power It opens with a discussion of the elements of combat power It then discusses the six warfighting functions used to generate combat power and access joint and multinational capabilities Lastly it discusses how Army forces organize combat power through force tailoring task organization and mutual support
