Developing Advanced English Language Competence Armin Berger, Helen Heaney, Pia Resnik, Angelika Rieder-Bünemann, Galina Savukova, 2022-02-03 This volume presents a systematic approach to developing advanced English language competence at tertiary level. It includes the reflections of experienced language teachers and teacher researchers in the English Language Competence programme at the University of Vienna and provides examples of good practice amalgamating teaching expertise and research with aspects of curriculum design and programme management. The book addresses a growing academic and professional interest in understanding advanced language learning and use. To date research has tended to investigate advanced proficiency from a specific theoretical viewpoint for example cognition psycholinguistic processing strategies or the assumption of a critical period or the age factor. In contrast this work examines advanced proficiency from a curricular and instructional perspective by providing a profile of advanced level language development in a specific institutional context. It brings together three areas of language education curriculum design pedagogical practice and research. Within this triangle advanced English language education is the focus or conversely advanced English language education provides the lens through which links between curriculum design teaching and research can be established. **Linguistica Silesiana**, 2003 **The Writers Directory 2008** Michelle Kazensky, 2007-06 Features bibliographical biographical and contact information for living authors worldwide who have at least one English publication.
