assessment methods in minutes **Local Organization Handbook for the National Library Week Program** National Library Week Program,1961 **Library Programs and Services for New Adults** Kyla Hunt,2017-10-06 Addressing the needs of new adults those ages 18-29 in the library is an important challenge. This book explains the needs and wants of new adults in the public library setting and identifies their preferences in physical space, programming, and technology. According to the Pew Research Center's 2015 Libraries at the Crossroads Report, 52 percent of people between the ages of 16 and 29 visited a bookmobile or library within the past year. Yet many public libraries' programming and outreach skip over this demographic, jumping from teen services to older adults. *Library Programs and Services for New Adults* provides a road map for including new adults into the family of the small public library and offers a variety of resources and programming ideas that librarians can use immediately. Author Kyla Hunt, a library technology and trends specialist, explains why the needs of new adults are typically overlooked at public libraries, defines who new adults are, and explains why serving their needs is key to the success of today's public libraries. Readers will come away with an in-depth understanding of the mindset and needs of patrons who are 18 to 29 years old and be able to cater to their preferences as they pertain to physical space, programming, technology, and marketing.

Show-me Libraries ,1962 **Crash Course in Young Adult Services** Sarah Flowers,2017-10-10 Learn how to improve teen services in public libraries by better understanding teen development and having positive interactions with teens to provide appropriate and interesting collections and services. A library can be a tremendous resource for teens, one that helps them to learn about themselves and the world they live in. But teenagers are intrinsically different from children and from adults, and these critical developmental differences affect the ways they interact with others both in the world at large and in the library. Serving teens effectively in the library requires a basic understanding of who teens are and the developmental tasks they face, factors that affect all aspects of library service from the specific programs and services we offer to the ways that staff provide assistance to the teen who is seeking help at a library service desk. This book enables library workers to better understand adolescent development, which allows them to provide a positive library experience for teens. Readers will learn how to supply excellent library services with and for teens, including in the areas of collection development, readers' advisory, reference, and homework help, programming, and advocacy. The book identifies the best ways to have positive interactions with teens in the library based on their mental development and details best practices for teen services. The concluding section discusses advocating for teens with emphasis on their right to privacy and equal access to materials and services.
