John Varley British Watercolour Series:

John Varley, 1778-1842 Claus Michael Kauffmann, John Varley, 1984 *Great British Watercolors* Matthew Hargraves, 2007-01-01 Paul Mellon 1907 1999 assembled one of the world's greatest collections of British drawings and watercolors. In his memoirs he wrote of their beauty and freshness, their immediacy and sureness of technique, their comprehensiveness of subject matter, their vital qualities, their Englishness. This catalogue celebrating the centenary of Mellon's birth features eighty-eight outstanding watercolors from the fifty thousand works of art on paper with which he endowed the Yale Center for British Art. The selection spans the emergence of watercolor painting in the mid 18th century to its apogee in the mid 19th. These works highlight the diversity of British watercolors, showcasing both landscape and figurative works by some of the principal artists working in the medium, including Thomas Gainsborough, Thomas Rowlandson, William Blake and J.M.W. Turner.

John Varley (1778-1842) Anne Lyles, Courtauld Institute of Art, 1980 **The Great Age of British Watercolours, 1750-1880** Andrew Wilton, Anne Lyles, Royal Academy of Arts (Great Britain), National Gallery of Art (U.S.), 1993 The revolution in watercolours of the later eighteenth century and its Victorian aftermath is acknowledged to be one of the greatest triumphs of British art. Its effect was to transform the modest tinted drawing of the topographer into a powerful and highly flexible means of expression for some of the Romantic era's greatest artists, among them Thomas Girtin, J.M.W. Turner and John Constable. The painters of the next generation were no less ambitious and the range of subject matter and technical inventiveness that was sustained for much of the Victorian period was to set a standard in watercolour painting that was without equal abroad. In this magnificently illustrated survey of the great age of British watercolours, Andrew Wilton and Anne Lyles trace the development of attitudes to landscape and to the human figure in the landscape from 1750 to 1880. They show how once the traditional pen and ink drawing and its augmented washes of colour had been abandoned in order to paint directly in watercolours without pen outlines, the way was open for the powerful Romantic landscapes of the following decade and beyond, many of which were painted in the wild mountainous regions of Wales and Scotland. During the nineteenth century, as the gilt-framed exhibition watercolour began to challenge the long-established oil painting in terms of size and in brilliance of colour and effect, the range of subject matter was broadened to include scenes of country and town life from every part of Britain and increasingly from the Continent too. By mid century the Near East was attracting many of the greatest Victorian watercolourists, including J.E. Lewis, David Roberts and Edward Lear. Other leading Victorians who regularly worked in watercolour include the Pre-Raphaelite painters John Everett Millais and William Holman Hunt and the American-born James McNeill Whistler, all of whom are included in this book.

works are analyzed and reproduced in color and black and white **British Landscape Watercolours, 1750-1850** Jane Munro, Fitzwilliam Museum, 1994 *British Landscape Watercolours, 1600-1860* British Museum, Lindsay Stainton, 1985 British artists from Hollar to Ruskin excelled in the art of the watercolour. In its delicate strength they found the perfect medium in which to express a growing response to Nature and their environment. Artists such as Sandby, Girtin, Turner and Cotman travelled in search of romantic landscapes, picturesques, ruins and dramatic urban skylines, visiting places as diverse as the Yorkshire moors, Norwich, Venice and Rome. Over 140 of their finest watercolours are reproduced here in full colour and discussed in detailed notes. In the introduction Lindsay Stainton explores the development of the relationship between Nature and Art and shows how patrons and the public could influence the life and work of an artist during this golden age of British painting. William Blake 1757-1827 is a universal artist, an inspiration to musicians, poets, performers and visual artists worldwide. By combining his poetry and images on the page through radical printing techniques, Blake created some of the most striking and enduring images in art. Featuring over 130 color images, this accessible yet comprehensive introduction to Blake's achievements and ambition includes discussions of his legacy in America, relationship to the medieval, Renaissance and Baroque artists who preceded him, visionary imagination and unparalleled skill as a printmaker

[British Watercolours and Drawings from Rowlandson to Riley](#), 1982 [Sun, Wind, and Rain](#) David Cox, Scott Wilcox, Peter Bower, 2008 Born in Birmingham, England in 1783, David Cox was destined to become a major figure in the linked worlds of landscape painting and watercolor painting in the first half of the nineteenth century. Remarkably, no significant study of the artist has been undertaken in more than a century. This beautifully illustrated volume focuses much-needed attention on Cox, filling in the details of his biography and illuminating his contributions to British landscape painting. Cox's widely known *Sun, Wind, and Rain*, painted in 1845, is emblematic of his concern with the representation of light and atmosphere and weather. He was unparalleled in his ability to capture the effects of wind and weather. Scott Wilcox's chapter in this book investigates Cox's artistic identity and his legacy. Other chapters address such topics as Birmingham's cultural milieu, myths about Cox's life, the papers he chose, his painting in oils and the fakes, forgeries and misattributions that have challenged attempts to identify his oeuvre with certainty.
