## 4 Chassis and Suspension

## General

The running gear of the 911 Targa is based largely on that of the regular 911 Carrera for the 2002 model year. Minor modifications had to be carried out as a result of the different vehicle weights.

The 911 Targa is offered in different suspension versions. They include the Standard, Sport and 4S suspension.

Only the changes compared with the suspension versions of the 911 series for the 2002 model year are described in this section.

## Front Suspension

## 4065 Springs

In the Standard and Sport versions the 911 Targa is equipped with the springs from the 911 Carrera (4S, specification vehicles are equipped with the luxury sports springs) under the Standard and Sport suspension version.

The springs are color-coded to distinguish them.

## 4077 Torsy Bar

The torsy bars were modified to suit driving characteristics. Torsy bars of two different diameters are used, which are installed in the corresponding suspension version.
