Encyclopedia 2000 Bowker Editorial Staff, 2000-05 *Biology* Sandra S. Gottfried, 1987 **The Earth** Harm J. de Blij, 1995 Since the publication of the last edition of this popular book the world's political geography has changed dramatically. The refugee population has mushroomed. Migrations relocate millions every year. Onslaughts on tropical forests continue and overexploitation threatens maritime resources. This edition has been completely revised to reflect these transformations. The geography dimension has been strengthened through the expansion of material on Earth origins, crustal evolution and erosional processes. Increased attention is given to such topics as climate change, weather extremes, biogeography and resource questions. The second half has been recast notably in the urban, economic and political chapters. The cartography is totally new and photographs are drawn from the author's field collection. This text includes full color art and design and is organized into 30 brief eight to ten page chapters. *Essentials of Biology* Holt Rinehart & Winston, 1998

Video-interventions Nada Vondrová, 2021-01-01 The book deals with developing the concept of professional vision noticing and knowledge based reasoning among future primary and secondary school teachers of Biology, Mathematics, English as a foreign language, Art and Social Studies. Researching the use of video interventions during teacher training programmes the authors show that short term interventions do not significantly improve professional vision which is in contrast to student teachers' perception of the practice. The book also uses case studies to uncover individual differences in student teachers' learning taking into account their various backgrounds and approaches. This is a valuable resource for teacher educators who are considering the incorporation of video intervention courses into study programmes and for researchers interested in the development of professional vision. *Practical Skills in Biology* Allan M. Jones, Robert H. Reed, Jonathan D. B. Weyers, 2003 Have some fun with Igglepiggle in this colourful In the Night Garden storybook. Beautiful bright pages and a simple story full of fun and surprises that will enchant fans of the programme. **Collins International Primary Science - International Primary Science Teacher's Guide 2** Karen Morrison, Tracey Baxter, Sunetra Berry, Pat Dower, Helen Harden, Pauline Hannigan, 2021-06-14 Collins Primary Science fully meets the requirements of the Cambridge
