Navigating The Digital Shift: Implementation Strategies for Blended and Online Learning John Bailey, Carri Schneider, Tom Vander Ark, 2013-10-09 Our nation's schools stand at an important inflection point in the history of education. Taken together, the implementation of common college and career standards, the shift to next-generation assessments, the availability of affordable devices, and the growing number of high-quality digital instructional tools create an unprecedented opportunity to fundamentally shift the education system to personalize learning around the individual needs of every student. Digital Learning Now (DLN), a national initiative under the Foundation for Excellence in Education (ExcelinEd) in association with Getting Smart, brings *Navigating the Digital Shift: Implementation Strategies for Blended and Online Learning* to readers interested in exploring the implementation challenges at the intersection of these shifts. Co-authored by John Bailey, Carri Schneider, and Tom Vander Ark, *Navigating the Digital Shift* offers updated versions of the eight papers originally released in the DLN Smart Series, including contributions from 11 additional co-authors representing leading organizations such as Public Impact, the International Association for K-12 Online Learning (iNACOL), and The Learning Accelerator. Topics include blended learning implementation, teaching conditions, and careers competency-based learning, student data, online learning,

myths and student based funding Jeb Bush Governor of Florida from 1999 2007 and Chairman of ExcelinEd contends that the book provides policymakers and education leaders the tools they need to use digital learning as a catalyst for improved student achievement AASA 2013 Superintendent of the Year Dr Mark Edwards believes the collection provides meaningful practical and poignant advice as well as commentary regarding the move to college and career ready standards associated with the shift to personal online learning and digital resources Rhode Island s Commissioner of Elementary and Secondary Education Deborah Gist describes the book as an invaluable resource that will help educators re imagine what our schools can look like and what our students can accomplish

Mindset Mathematics: Visualizing and Investigating Big Ideas, Grade 8 Jo Boaler, Jen Munson, Cathy Williams, 2020-01-29 Engage students in mathematics using growth mindset techniques. The most challenging parts of teaching mathematics are engaging students and helping them understand the connections between mathematics concepts. In this volume you'll find a collection of low floor high ceiling tasks that will help you do just that by looking at the big ideas at the eighth grade level through visualization, play and investigation. During their work with tens of thousands of teachers authors Jo Boaler, Jen Munson and Cathy Williams heard the same message that they want to incorporate more brain science into their math instruction but they need guidance in the techniques that work best to get across the concepts they needed to teach. So the authors designed Mindset Mathematics around the principle of active student engagement with tasks that reflect the latest brain science on learning. Open creative and visual math tasks have been shown to improve student test scores and more importantly change their relationship with mathematics and start believing in their own potential. The tasks in Mindset Mathematics reflect the lessons from brain science that There is no such thing as a math person anyone can learn mathematics to high levels. Mistakes, struggle and challenge are the most important times for brain growth. Speed is unimportant in mathematics. Mathematics is a visual and beautiful subject and our brains want to think visually about mathematics. With engaging questions, open ended tasks and four color visuals that will help kids get excited about mathematics. Mindset Mathematics is organized around nine big ideas which emphasize the connections within the Common Core State Standards (CCSS) and can be used with any current curriculum.
