*in Practice E-Book* Karen Holland, Jane Jenkins, Jackie Solomon, Sue Whittam, 2008-04-08 The eBook version of this title gives you access to the complete book content electronically. Evolve eBooks allows you to quickly search the entire book, make notes, add highlights and study more efficiently. Buying other Evolve eBooks titles makes your learning experience even better – all of the eBooks will work together on your electronic bookshelf so that you can search across your entire library of Nursing eBooks. Please note that this version is the eBook only and does not include the printed textbook. Alternatively you can buy the Text and Evolve eBooks Package which gives you the printed book plus the eBook. Please scroll down to our Related Titles section to find this title. This is a new edition of the highly successful textbook which explores the use of the Roper, Logan and Tierney Model of Nursing in practice. It underpins nursing care for patients with a variety of health care problems. The main focus is on nursing adult patients in acute and community based settings. Applying the RLT Model in Practice has been written to enable students and their teachers in both Higher Education and clinical practice to explore the different dimensions of the model through a variety of case studies and exercises. The case studies can be viewed as triggers for student problem solving skills in using the Model. Many of the exercises are aimed at enabling readers to find evidence to support nursing activities. The authors have incorporated an international perspective throughout the text. Based on the most popular model used in general nursing care throughout the world, it explicitly demonstrates how the RLT model can be used to assess, plan, deliver and evaluate individualised nursing care. It applies the RLT model in the context of today's health services and links it to clinical governance and the multi disciplinary context of care. It uses a problem solving approach with extensive use of exercises and case studies. Attractive two colour design using boxes, tables and summaries. Fully updated throughout in line with changes in practice, developments in the evidence base, changes in the NHS e.g. modern matrons, Modernisation Agency etc. More material on how to apply the model in an inter disciplinary context. Updated infection control section. More on discharge planning. More material relating to primary care. [Class Trip Directory 2005-2006](#) [New York Metro](#) Gail Granet Velez, 2005-08
