The Implementation of Interactive Science Notebooks and the Effect it Has on Students Writing Eva J. Braxton, 2010

The purpose of this study was to determine whether or not my practice of implementing Interactive Science Notebooks (ISN) impacts 4th grade students' writing in science. Through this action research, students' writing was analyzed to determine whether the use of ISN affected students' use of details, support, claims, and justifications in their written responses. Also, through the use of the Interactive Science Notebook, students' use of science vocabulary in their writing was also analyzed. Finally, students' reflective writing practices were examined in order to determine how students understood and explored physical science. A triangulation of data gathered consisted of the use of rubrics, focus groups, and one on one conferencing. The data collected from this action research implied that the Interactive Science Notebooks did indeed have an impact on
